The Pittsburgh Gazette

Just now there is some excitement at Harrisburg in respect to the publication of Republican newspapers in that town. To-day the *State Guard* will appear under the editorial management of Wein Forney and J. R. Dungleson. The former has for some years been the principal editor of the *Telegraph;* the latter is Private Secretary to Gov. Geary. It is conjectured that John W. Forney and Geo. M. Lauman are interested in this new venture.

Temporarily Samuel Barr is enlivening the editorial columns of the *Telegraph* with his pungent and accomplished pen. But Mark H. Cobb, of the Tioga *Agitator*, will, on the first of January, take the post vacated by Wein Forney.

The *Telegraph*, at this conjuncture, warmly advocates the nomination of Gen. Geary for Vice President; which, being interpreted, means that he is expected to relieve Mr. Dungleson of the confidential place near his person which he occupies. The Governor, so far, has not taken the hint.

A. K. McClure expects to be back from Montana early next spring, and to start a journal at Harrisburg. His published letters from Montana have given him additional reputation as a thinker as well as a writer; and if he shall carry his journalistic intentions into effect there will be a lively time at the State Capital, with a fair prospect that whatever journal or journals shall survive the competition will do so by legitimate enterprise and talent.

The appointment of Hon. D. J. Morrell, of the 17th Congressional District, as Chairman of the Committee on Manufactures, has given very general satisfaction, and was a very judicious selection. Perhaps no man in Congress has given more study to the manufacturing interests of the country than Mr. Morrell, and he is widely known as a warm friend of a protective policy for home industry.

Hon. L. W. Hall, late Speaker of the State Senate, and his young bride, have taken their departure from New York for Europe, where they will make an extended bridal tour. Previous to his departure he entertained his friends by a grand banquet at the Legan House, Altoona.

NEWS BY TELEGRAPH.

—Thaddeus Stevens was entirely prostrated yesterday, and not able to leave his bed.

The Supreme Court members yesterday paid their respects to the President in a body.

—Secretary Seward insists on the appointment of E. L. Plumb as Minister to Mexico.

—Peter B. Headley, Wells, Fargo & Co.'s defaulting agent, has been pardoned from the California State Prison.

—Horace Greeley, whose appointment to the Austrian Ministry has been confirmed, says he will not leave the country until after the Presidential election.

—General Sheridan arrived at Chicago yesterday. He was escorted to the Fremont House, but declined making any speech.

—The House of Representatives of Kentucky organized yesterday by the election of John T. Bunch as Speaker. The Senate did not organize. The Governor's message will probably be read to-day.

—The bill to repeal the section of the franchise act withholding from negroes the right of holding office was discussed all yesterday in the Tennessee Legislature, on its second reading. The galleries were crowded with blacks during the discussion.

—The safe of the Boston and Albany Railroad, at Springfield, Mass., was blown open by burglars Sunday night, and $12,500 in notes and bonds stolen. The corporation loses $3,000 and its employees the balance.

—The boiler of a locomotive at the Nashville and Decatur Depot, at Nashville, exploded yesterday afternoon, killing Geo. Sweeney, fireman, the engineer and two others. Sweeney was hurled a distance of thirty yards, and the boiler was thrown two hundred and forty feet.

—The impeachment men, especially the majority of the Judiciary Committee, think great injustice has been done them by the press of the country. The minority report has been given out while the majority report, excepting the conclusion, has not been published, and the latter claim that judgment has been passed without knowing or seeing the law upon which their report is based.

—The Atlantic Cable Company announce that properly accredited agents of any newspaper or newspaper association will be allowed to transmit at half price political and general news, and in plain language only. No abatement will be made to newspapers on commercial or code messages. Contracts may be entered into by which the Company will agree to adhere to the half rate for one year to such newspapers as will pay to the Company at least $3,750 per month for political and general news.

—The Legislature of California met at Sacramento yesterday. They will organize to-morrow. The balloting for United States Senator will begin December 17th. The Republicans are sure of a majority of three in the Senate. The Governor's message, Controller's and Treasurer's reports will make an excellent showing of State business. There is over a million in the Treasury. Lieutenant Governor Low has made quite a number of appointments recently, which will be confirmed by the Senate.

—E. P. Whipple in a eulogy on Governor Andrew says: "He knew that the disease of which he eventually died might strike him at any moment. Three months before he entered on his glorious career a Governor, he was warned by his physician that any over exertion of brain would endanger his health and probably his life. He was notoriously as regardless of the warning as a brave soldier going to a battle would be regardless of the admonition that he might be hit by a bullet. The care that a man takes of his health should of course be subordinate to his sense of duty. Considerations of hygiene did not enter into the soul of William of Orange, doing that which he knew would reduce him to an 'asthmatic skeleton'—into the soul of Milton, doing that which he knew would deprive him of his sight—into the soul of Latimer, doing that which he knew would lead him to the stake. On the same principle, Gov. Andrew felt that he was at his post, not to take care of himself, but to look after the rights and interests of others.

—Mr. Spurgeon has put forth a manifesto in his magazine called the *Sword and Trowel*, in which he says: "I have spent two months in ill health, and much of the time in severe pain; but by the good hand of God upon me, I am now much better, and hope to resume my home work very speedily. I have resolved, for twelve months at least, to refuse almost all work away from home; and I now earnestly beg friends not to distress me with importunate requests to preach here, there and everywhere. For years I have preached from eight to ten times a week, besides issuing the weekly sermon, editing the magazine, overseeing the church, superintending the college, directing the orphanage, founding new churches, attending committees, and a thousand other things; but many signs indicate that there must be a pause. I am not less willing, but I am far less able than I was to serve the Church by preaching."

—The following is from the Albany *Journal*: Some of the papers are complimenting General Spinner because several billions of money have passed through his hands without the loss of a dollar. This is well enough where the General is not known. But here, we would as soon think of complimenting the sun for shining, as General Spinner for being honest. Like the delight of dogs "to bark and bite," neither of them can help it; for in the langurge of the primer "God hath made them so."

FIRST EDITION.

MIDNIGHT.

FORTIETH CONGRESS.

President will Communicate to the Bodies To-day.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, December 2, 1867.

SENATE.

Senate, at 11.30, opened with prayer by the Chaplain.

COMMUNICATION.

A letter was received from the Secretary of the Treasury in reply to a resolution calling on him for information in regard to the amount received by Col. Hubbard from the sale of captured and abandoned property.

MEMORIAL AND PETITION.

Mr. SHERMAN presented a memorial from citizens of Alabama praying for relief from the cotton tax. Referred to Committee on Commerce.

Mr. POMEROY presented a petition from citizens of Achison, Kansas, asking Congress to establish impartial suffrage wherever its jurisdiction extends. Referred to Committee on District of Columbia.

SPECIE PAYMENTS.

Mr. CORBETT introduced a bill to substitute gold notes for legal tender notes, and to facilitate the resumption of specie payments. Laid over and ordered to be printed.

THIRTY-NINTH CONGRESS ADJOURNS.

The hour of noon having arrived, the President announced the last session of the Thirty-ninth Congress stood adjourned without date, and immediately called the session of the Senate of the Fortieth Congress to order.

FORTIETH CONGRESS.

The Secretary was directed to inform the House of Representatives thereof, and a committee appointed as usual to notify the President.

Mr. STEWART introduced a bill to establish a national school of mines. Laid on the table and ordered to be printed.

Mr. DRAKE offered a resolution, which was adopted, asking the Secretary of the Treasury to inform the Senate whether any part of the salary of any United States Judge has been withheld on account of non-payment of taxes.

Mr. FOWLER introduced a resolution for the repeal of the tax on cotton. Laid on the table.

Mr. THAYER asked to present for consideration a resolution asking the Secretary of the Treasury whether Edward Cooper assumed the duties of Assistant Secretary of the Treasury on November 30th, and, if so, under what law and by what authority.

Mr. BUCKALEW objecting, it was laid over.

Mr. WILLIAMS offered a resolution, which was laid on the table and ordered to be printed, instructing the Committee on Indian Affairs to inquire into the expediency of providing certain reservations of lands, in different localities, for Indians, and adopting the customs of civilization.

The Committee appointed to wait on the President returned and stated that he informed them he would communicate with the Senate in writing to-morrow.

HOUSE OF REPRESENTATIVES.

The House, at half-past ten o'clock, resumed the session of Saturday.

On motion of Mr. BLAINE, the Committee on Banking and Currency was instructed to inquire into the expediency of so changing the laws in respect to the taxation of National Banks as to permit all stock owned in the State where the bank was located to be assessed and paid in the city or town where the stockholders reside.

Mr. WILSON, Chairman of the Judiciary Committee, obtained leave to make a personal explanation. Referring to an editorial article in the Washington *Intelligencer* of the 28th of November, in which the action of Mr. Churchill, of New York, on the impeachment question is spoken of as the defection of an unfortunate beggar for place and patronage at the footstool of the executive power, and in which it is stated that to him refer the searching words of Messrs. Wilson and Woodbridge, he said the article attacked his colleague unjustly, and gave itself point by stating a misapprehension of the report of the minority of the Committee in its introductory paragraph. That statement, he said, was in reference to the minority having only been informed forty-eight hours before the character of the report representing the changed attitude of the Committee, and was intended simply for the defense of himself and colleague (Mr. Woodbridge), and not as an attack on Mr. Churchill. It certainly was not his intention to cast any reflections on Mr. Churchill, and he knew of no reason that would justify him in challenging his (Mr. Churchill's) motives, or in suspecting his personal or official integrity. He regretted the change, but he had never thought of imputing it to other than conscientious motives.

Mr. PAYNE offered a resolution citing that it is provided in the first article of the Constitution that no money shall be drawn from the Treasury except in consequence of appropriations made by law, and that the President had, with the advice and consent of the Senate, made a treaty with the Emperor of Russia for cession of territory on payment of $7,200,000 in gold, and instructing the Judiciary Committee to inquire and report whether, under the Constitution of the United States and laws of the nation, it has the right to grant or refuse at its discretion an appropriation for the payment stipulated in such treaty. Adopted.

Mr. EGGLESTON presented a resolution of the Cincinnati Common Council in reference to the national finances, and in favor of the repeal of the cotton tax. Referred to the Committee on Ways and Means.

Mr. MUNGEN offered a resolution directing the Secretary of the Treasury to suspend at once all further action in the execution of a contract for the supply of spirit-metres, for the detection of distillation frauds, until the House can inquire into the subject. Referred to the Committee on Ways and Means.

On motion of Mr. WASHBURNE, of Illinois, the Committee of Accounts, Naval Affairs, Military Affairs, Public Lands, Foreign Affairs, Postoffice Department, District of Columbia, Territories, Commerce, Invalid Pensions and Indian Affairs, were authorized to employ clerks during the Fortieth Congress at four dollars per day when actually employed.

On motion of Mr. WASHBURNE, of Illinois, the Secretary of the Treasury was directed to communicate certain information as to vessels in the revenue service, how and where employed, their cost, and number sold within two years.

Bills were introduced and referred to amend the act of July, 1866, increasing the pensions of widows and orphans; to prevent any further contraction of the currency for the purchase and annexation of British Columbia, including Vancouver's Island; declaring Cincinnati a port of entry; for the repeal of the cotton tax; to allow taxation of greenbacks, compound interest notes, and national currency, by the various States and localities; to provide pensions for certain officers and soldiers who served in the war of 1812, Mexican war, and in Indian wars up to and including the Black Hawk war; concerning the promotion of naval officers restored to the active list; to re-establish the boundaries and change the names of certain collection districts in Michigan; for an additional session of the District Court of the United States, to be held at New Albany, Indiana; to provide for jurors in certain cases in the District of Columbia; to establish certain post roads in Ohio.

Mr. BROOKS offered a resolution declaring that in the opinion of the House the contraction of the currency four millions dollars per month, authorized by law, but subject to the discretion of the Secretary of the Treasury, ought, during the present depressed condition of the commerce and manufactures of the country, to cease. He moved the previous question, which the House refused, by a vote of forty-five to fifty-four, to second, and Mr. INGERSOLL rising to debate, the resolution went over under rule.

Mr. INGERSOLL obtained unanimous consent to put a question to the Chairman of the Committee on Ways and Means. He, on the first day of the session, introduced a bill to repeal that section of the law which authorized the contraction of currency, and had it referred to the Committee on Ways and Means. He desired the Chairman of that Committee to state when the House would have a report on the subject?

Mr. SCHENCK replied that the Committee had as yet been unable to consider more than one important subject relating to finance, and that it was prepared to report, referring to the repeal of the cotton tax. The Committee proposed to meet from day to day and to grapple as best it could with every one of those financial subjects, and he apprehended a report would be made at an early day on the subject to which Mr. Ingersoll referred, and on other important matters.

Mr. INGERSOLL declared the reply was perfectly satisfactory; but he wished to call attention to the fact that the Secretary of the Treasury was depleting the currency at the rate of one hundred and twenty-five thousand dollars a day, thus, Sangredo like, taking the very blood out of the people.

Mr. SCHENCK remarked that the Committee, although very young in life, was not at all asleep, and he was inclined to think not only the gentleman from Illinois, but everybody in the country was thinking on the subject, and the Committee proposed to act on it as soon as possible, but not without some little deliberation. One reason why the Committee had not hurried to report on any of these subjects was, it had yet to get the reports of the Secretary of the Treasury, and his various subordinates.

Mr. ELY offered a resolution instructing the Committee on Ways and Means to inquire into the expediency of authorizing a new loan, payable after ten years, and redeemable after thirty years in coin, by an issue of five per cent. bonds, the interest payable semi-annually in coin, and bonds taxable at the rate of one per cent., to be deducted from the interest when paid; also providing for notice to be given to holders of Government obligations now due or hereafter to become due, that they may receive such bonds in exchange or payment, according to the tenor of such obligations. Adopted.

Mr. BANKS offered a resolution declaring that public policy and national honor alike forbid the redemption of the funded debt of the United States in a depreciated paper currency. He moved the previous question, which the House refused to second—ayes only twenty-nine—and the resolution was referred to the Committee on Ways and Means.

Mr. FLANDLERS offered a resolution instructing the Committee on Military Affairs to inquire into the expediency of terminating the joint occupancy of San Juan Island. Adopted.

On motion of Mr. INGERSOLL, the Secretary of the Treasury was directed to furnish information as to the amount of revenue received from National banks during the last fiscal year, and the amount of interest drawn by such banks from the Treasury.

On motion of Mr. KERR, the Judiciary Committee was instructed to inquire into the expediency of holding two terms of the United States District Court for Indiana in New Albany.

The Committee on Pensions was instructed, on motion of Mr. COLBURN, to inquire into the expediency of providing bounties of lands for soldiers in the late war.

On motion of Mr. MAYNARD, the Committee on Banking and Currency was directed to inquire into the expediency of requiring National Banks, from the 1st of May, 1868, to redeem their circulation in coin.

On motion of Mr. GRAVELLY, the Committee on Ways and Means was instructed to inquire into the expediency of reducing the internal revenue tax on tobacco.

Mr. GARFIELD introduced a bill relating to officers of the army dismissed or cashiered by sentence of a General Court Martial. Referred.

The bill makes it unlawful for the Executive to restore to the army any officer so dismissed or cashiered, except by reappointment, confirmed by the Senate.

Mr. ARNELL rising to a personal explanation, referred to a statement of Mr. Brooks on the 21st, ult. that he (Mr. Arnell) had given aid and comfort to the rebellion by supplying the rebel army with shoes from his tannery in the county of Lawrence. He denied he had ever had a tannery in that county, or that he had ever expressed his sympathy for rebellion. He had owned a leather establishment in Lewis county, Tennessee, and the rebels had got leather from it, although before Gen. Buell withdrew from that section he had applied to Gen. Negly to have his leather taken or destroyed by the Federal troops, which he declined to do. A guard of rebel soldiers had afterwards come to his premises and taken possession of his leather in the name of the Confederacy. This was the head and front of his offending. Nothing was easier, he said, than to make a reckless charge and to blacken other men's character, but he envied neither the head nor the heart of any man so engaged.

Mr. ASHLEY, of Ohio, introduced a joint resolution proposing an amendment to the Constitution of the United States. Referred to the Judiciary Committee.

It declares that all persons born or naturalized in the United States, or who are subject to its jurisdiction, are citizens of the United States, and of the State or Territory wherein they reside; makes all such citizens over twenty-one years of age, except untaxed Indians, electors where they reside; makes it incumbent on each State to establish and maintain free public schools for the accommodation of all children; also renders ineligible to seats in Congress, or any military or civil office under the government, all who were members of any convention or legislature, or who held a commission above the rank of captain in the rebel army; and provides that the validity of the public debt shall not be questioned, and that no part of the rebel debts shall ever be recognized, or payment made for loss or emancipation of slaves.

On motion of Mr. WALKER, the Committee on Ways and Means, was instructed to inquire into the expediency of amending the revenue laws, by abolishing special licenses.

On motion of Mr. DAWES, and after considerable discussion, the Committee on Elections was authorized to continue the investigation into the charges against Mr. Barnum, of Connecticut, of having used bribery to effect his election.

On motion of Mr. PERHAM, the Committee on Ways and Means was instructed to inquire into the expediency of repealing the tax on the tonnage of American vessels.

The Speaker announced that the hour fixed by the concurrent resolution of both Houses for the final adjournment of the first session of the Fortieth Congress had arrived, and he therefore declared the session adjourned without day.

SECOND SESSION OF THE FORTIETH CONGRESS.

The Speaker declared, in conformity with the Constitution, the Fortieth Congress of the United States would now commence its second session.

The session opened with prayer by Chaplain Boynton. The roll was called, and one hundred and forty-six members answered to their names.

A message from the Senate announced that it had appointed a Committee to join a similar Committee of the House to wait on the President of the United States to inform him that Congress was in session and ready to receive any communication he chose to make.

On motion of Mr. WASHBURNE, of Illinois, a like Committee was appointed. Messrs. Washburne, Banks and Pruyn were appointed.

Subsequently Mr. WASHBURNE reported that the Committee waited on the President and had been informed he would send his annual message to Congress at half-past twelve to-morrow.

Mr. DAWES, from the Committee on Elections, to which had been referred the claim of J. D. Blake to a seat as Representative from the Third District of Kentucky, and the credentials of J. S. Galladay as a Representative from the same district, made a report, closing with a resolution that Mr. Blake was not entitled to a seat.

The subject was postponed until Wednesday, with leave for both claimants to address the House.

Mr. WAYNE offered a resolution for a new draw of seats, but on motion of Mr. SPAULDING it was laid on the thble; yeas 77, nays 64.

On motion of Mr. ELDRIDGE, the Committee on Commerce was directed to inquire into the propriety of improving the harbor of the port of Washington, Wisconsin, and making appropriation by Congress therefor.

On motion of Mr. WASHBURNE, of Indiana, the Select Committee on Soldier's Bounties was continued, but without authority to send for persons and papers.

Mr. ROBINSON, of New York, as a question of privilege, offered a resolution instructing the Committee on Foreign Affairs to inquire into the conduct of W. B. West, United States Consul at Dublin, regarding American prisoners at that city and report thereon forthwith, in order that, if he has been guilty of conduct which would render him liable to impeachment, the House may take measures to have an impeachment presented to the Senate.

Mr. FARNSWORTH made the point of order, that as the resolution did not directly propose impeachment, it was not a question of privilege.

The SPEAKER sustained the point.

Mr. ROBINSON thereupon modified the resolution so as to declare that W. B. West, United States Consul at Dublin, shall be impeached by the House.

The SPEAKER held in that form the resolution was a question of privilege.

Messrs. ROBINSON and JUDD then addressed the House on the treatment of American citizens in Ireland and Prussia, and at half-past two o'clock the House adjourned.

SUPREME COURT MEETING.

The United States Supreme Court convened at eleven o'clock this morning. Present, Chief Justice Chase, Justices Nelson, Clifford, Davis, Swaine and Miller. Grier and Field will be present to-morrow. The Chief Justice announced that the Court would not transact any business, but would proceed in a body to make the usual call on the President of the United States.

The Court then adjourned and the call was made.

Mr. Carlisle announced there would be a meeting of the bar on Tuesday, in respect to the memory of the late Justice Wayne. It is understood Secretary Browning will preside at the meeting, and Hon. Reverdy Johnson will be chairman of the Committee to announce his death to the court.

The late Assistant Attorney General, Mr. Ashton, has been retained by the Attorney General to argue the Paige cases now before the court for the Government.

THE COURTS.

District Court—Judge Williams.

Monday, Dec. 2.—The list for the day was called and all the cases either passed or continued.

Following is the list for this day:

89. Thomas Fawcett vs. N. J. Bigley.
92. Henry Grinnell vs. Oakland Railway Co.
94 Thomas D. Loomis vs. Mary Jane O'Neill.
96. Com'th. for use vs. Hiram Shaeffer.
98. Oscar F. Hines vs. Jos. N. Anderson.
99. W. F. Johnston for use vs. S. D. Lauffer.
101. Sam'l Graham vs. John Carlin & Co.

Common Pleas—Judges Mellon and Sterrett.

Monday, Dec. 2.—The case of George McCombs vs. James Rowan—taken up on Wednesday last—was resumed before Judge Sterrett and not concluded at adjournment.

James Marshall & Co., vs. H. W. C. Tweddle. Action to recover value of machinery furnished Eclipse Oil Works. On trial before Judge Mellon.

The Commission of Jacob H. Walter, Esq., Prothonotary elect, was read in open court.

A charter of incorporation was granted to the Minersville Cemetery of the Second German Evangelical Lutheran Church.

Following is the trial list for this day:

85. (Sept.) Marg't McNeill vs. Jno. Caldwell.
90. (Sept.) H. E. Towle vs. L. R. McAboy.
100. (Sept.) William Dilworth vs. Baum & Co.
89. (May) Greenwald & Kahn vs. Adam Berry.
1. (Oct.) J. M. Lindsay vs. Lippencott, Fry & Co
2. (Oct.) Lysle et. al. vs. "Little Jim Reese."
3. (Oct.) Hume & Smith vs. Ernest Hauk.
8. (Oct.) P. H. Pierce vs. Birmingham and Pittsburgh Passenger Railway.
9. (Oct.) William Clayton vs. John Coursin et. ux.

Quarter Sessions—Judge Stowe.

The December term commenced on Monday at ten o'clock.

The grand jurors were called, and the following answered to their names:

Alex. Atkinson, W. R. Boggs,
David Boyd, Jared M. Brush,
Eli Edmundson, H. S. Fleming,
John Gilfillan, Henry Hays,
Will M. Hartzell, Henry Eaton,
John Magill, George Neely,
C. H. Osborne, Wm. Reinhart,
W. A. Shaw, Matthias Voeghtley,

Jared M. Brush, Esq., of the Sixth ward, Pittsburgh, was appointed Foreman. After receiving instructions as to the nature of their duties from His Honor, Judge Stowe, the jury retired to their room to commence business.

The traverse jurors were next called, after which the constables of the various election districts in the county were required to make their returns of persons engaged in the liquor traffic.

Register Gray appeared on the bench and presented quite a number of guardian and administration accounts, which were confirmed *nisi*.

SURETY CASES.

Joseph Fisher alias Ashton, colored, was called to answer as defendant in a surety case, officer Poland, of Allegheny, prosecutor. It was stated by the officer that he attempted to arrest defendant on a warrant, when he made threats of personal violence. Defendant was required to give bond to keep the peace for one year.

James L. Sutherland, Kate McKee and Paul McKee were held in bonds to keep the peace, on complaint of Catherine Conn, of Pitt township.

Richard Sanders, defendant, and Mary Jane Simmons, prosecutrix, in a surety case, were each required to pay half the costs and each to give security to keep the peace.

AN ABANDONMENT CASE.

Benjamin Arthurs, of Monongahela City, Washington county, was called to answer an information against him for abandoning his wife and child in this county. The wife testified that she and the defendant were married on the 26th November, 1866, at Monongahela City, and on the next day, in accordance with her husband's directions, she came to Pittsburgh, to her mother's, where he said he would join her in a week or so. He had not kept his word, and had not contributed to her support or that of his child. The Court directed that the defendant should give security in the sum of $300 for payment of twelve dollars per month for the support of his wife and child.

The Mendelssohn Quintette Club, of Boston, is announced to give two concerts at the Academy of Music, to-morrow and Thursday evenings, in which they will be assisted by Miss Addie S. Ryan, a celebrated songstress. The sale of tickets commenced yesterday at Mellor's Music Store, and judging from the rush there will be crowded houses. The programmes for both evenings embrace selections that cannot fail to meet lively appreciation, and those who would secure good seats should call early to-day.

CITY AND SUBURBAN.

Lawrenceville Council.

The regular monthly meeting of Lawrenceville Council was held last evening.

Members present—Messrs. Anderson, Berger, Meanor, Hart, Sill, Scott, Weisenberger, Watson and Burgess Buffum.

The minutes of the last regular meeting were read and approved. Minutes of special meetings held Nov. 7th, 8th and 13th were also read and adopted.

The Treasurer's report for last month was presented and read as follows:

Dr.

The following, paid by the Treasurer was approved and a warrant ordered for the same:

Paid Dickson, Marshall & Co.—8 per cent. bonds	$4,500 00
" Dickson, Marshall & Co. cash	38 60

The above amount was for cast iron gutter boxes to date.

On motion, a warrant was ordered in favor of K. Bracken for $3,097 30, being the balance of an estimate of curbing and paving on St. Mary's Avenue, between Butler street and Donahue's line. The total amount was $7,342.50, and $4,045.20 have previously been paid by warrants.

Final estimate of K. Bracken for curbing and paving on Davidson street, $1500.63—less $1350.46 paid by warrants; balance unpaid, $50.26. Warrant ordered.

Estimate of grading executed by McGilloray & Co., on Chestnut street, $508,64, presented, and, on motion, bonds at one year ordered to be issued for the amount.

Estimate of grading executed by Jas. Duane, presented as follows:

On St. Mary's avenue	$339 70
On Church street	494 20
Total	$834 20

On motion, warrant authorized.

Estimate of curbing and paving executed by K. Bracken, on Church street, to date, $2,810 47; presented, and on motion, bonds at one year ordered to issue for the amount.

The Street Committee presented their report, of which the following is a synopsis: Grading, paving and curbing of St. Mary's avenue from Butler street to Donahue's lane, and of Davidson street from St. Mary's avenue to Church street, completed. Grading of Church street from Davidson street to Cemetery gate, and of St. Mary's avenue from the Pittsburgh and Greensburgh turnpike to Keller's alley, also completed. Curbing and paving of Church street, three-fourths finished. Other street improvements are progressing satisfactorily. The report was adopted.

Mr. Sill presented the following, which was passed:

Resolved, That section No. 1, of plan of First ward, as laid down by Borough Regulator, be adopted and published.

Mr. Scott moved that an ordinance be drawn up repealing that portion of an ordinance opening Johnson street.

Mr. Sill moved as an amendment that all further action be suspended.

The amendment was lost.

The original motion was laid upon the table.

Report of J. M. Covert, Weighmaster at Ewalt street Scales, showing receipts of November to be $60.31, presented and accepted.

A supplement to an ordinance relative to laying gas pipe in the borough, passed Nov. 4th, was read by the Solicitor. The first section provides that no other company except the Lawrenceville Gas Company shall have the privilege of laying pipe in the borough, provided said Company commence their work at once, and furnish gas at as low rates as other companies. Provisions of minor importance made by succeeding sections. The ordinance was read three times and passed.

The case of J. Snyder, an employee of the borough, now an inmate of St. Francis Hospital in consequence of injuries received by an embankment falling upon him, was laid before Council.

Colonel Sill moved that a warrant for one hundred dollars be drawn in favor of Mr. Snyder.

Motion amended so as to make the amount fifty dollars. Accepted, and passed as amended.

A petition for paving and curbing Washington street was presented, and an ordinance providing for the same ordered to be drawn.

On motion the Burgess was authorized to appoint a wharfmaster at the foot of Borough street, said officer to receive as compensation one-half the amount collected. The Burgess appointed Mr. Stewart.

Adjourned.

Fair at City Hall.

The Fair for the benefit of the Homeopathic Hospital, held under the auspices of the Ladies' Homeopathic Charitable Association, was formally opened at City Hall last night. At an early hour in the evening the large Hall was densely crowded with visitors, who were called to order at seven o'clock, when the opening address was delivered by Major Wm. Frew, who entertained them for half an hour in an able and eloquent manner.

The hall is tastefully decorated, and the booths, of which there are eleven, are arranged with marked taste and elegance. There are a great number of attractive features, one of which is the "Gypsie Camp," situated in the corner at the left of the entrance. A small tent is erected in an enclosure, filled with evergreens, the camp kettle hangs over the fire, near which is a well, and to complete the picture, two "gypsie queens," gorgeously dressed, and masked, are in attendance, and who, for the small sum of fifty cents, will lead you into the mysteries of the future, or unfold the hidden depths of the past. The dining saloon is also a matter of interest, not only on account of the excellent manner in which it is conducted, but on account of those who have it in charge. We regret that the want of space prevents us from entering into a detailed description of the different booths, but we will endeavor to do so during its progress. The opening dinner to-day will be a grand affair, and will doubtless be well patronized.

The object is a laudable one, and fully deserving of the patronage of our generous citizens, and we feel confident that the Fair will be a success, as Pittsburgh has never refused to contribute to any truly charitable object.

New Music.

One of the names which Pittsburghers cherish with pride is Stephen A. Foster. His songs and airs are more or less known wherever the English language is spoken. We were recently gratified to meet a new piece, "Queen of my Song," by Mrs. Julia Lightner Mitchell, a Pittsburgher, an old friend and pupil of Mr. Foster. It is published in handsome style, by his publishers, Pond & Co., New York, and dedicated to his sister-in-law and the composer's sister, Mrs. Jessie Foster. It is a low minor air suited to a voice of moderate compass, and well calculated to sooth an invalid or lull a baby to sleep. Mr. Foster never published a song until he had heard Mrs. Mitchell sing it, and give her opinion of it. The taste evinced in "Queen of my Song" shows that she was a suitable critic for his melodies.

Amusements.

Opera House.—The accomplished and charming actress, Lady Don, commenced an engagement at the Opera House last night, when she appeared in the character of Madge Wildfire, in "Jeannie Deans." The piece was well cast, but owing to the indisposition of Miss Howard, Mrs. Mark Bates was compelled to play her part, but notwithstanding she had but a few hours to prepare, she was "well up" in the part, and sustained it much better than could have been expected under the circumstances. If Lady Don's engagement is not a successful one, places of amusement had better close in Pittsburgh.

Meeting at Lafayette Hall—Citizens in Council.

A large and enthusiastic meeting of citizens was held at Lafayette Hall, last evening, to take action in regard to the treatment of adopted American citizens, by the English Government, and ask that protection from the authorities of the United States that was due to her adopted citizens, as well as to those who were citizens by birth, whether on land or sea, at home or abroad. The meeting was one of more than ordinary interest, and the spacious hall was densely crowded with the noble sons of Erin, who, to escape English oppression, left their native land and became adopted citizens of the United States, whose protection they now ask. The meeting was organized by the election of the following officers:

President—Hon. James Lowry.

Vice Presidents—John W. Riddell, James Blackmore, Thomas M. Marshall, Gen. J. Bowman Sweitzer, Colonel R. Biddle Roberts, J. J. Siebeneck, General F. H. Collier, G. E. Baber, Daniel O'Neill, David Lowry, N. P. Sawyer, George W. Leonard, E. D. Gazzam, Hon. R. P. Flenniken, Col. J. Heron Foster.

Secretary—Dr. E. Donnelly.

On assuming the chair Mr. Lowry made a speech, in which he briefly referred to the object of the meeting, and paid just tribute to the worth of the nationalized citizens of our country. He concluded by introducing George Baber, Esq., editor of the *Advocate*, who reviewed the course England pursued towards our foreign citizens, in a clear and logical manner. He was followed by D. O'Neill, Esq., editor of the *Dispatch*, who spoke at considerable length and to the point on the great question, and while disavowing that he was either a Fenian or sympathized with their movements, he held that our government should force foreign powers to respect and recognize the rights of naturalized citizens. He concluded his address by reciting a poem from that humurous *Frenchman* "Miles O'Reilly" entitled the "Starry Flag," a parody on "Wearing of the Green." Mr. O'Neil was followed in an able address, by William R. Ford Esq., Member elect to the State Legislature. Mr. Blackmore next addressed the meeting in an eloquent and patriotic speech.

THE RESOLUTIONS.

Whereas, The people of Europe, oppressed by their rulers, fled to the new continent of America, there to enjoy religious and political freedom, founded a Government on the basis "that all men are born free and equal," and in support of which they pledged their lives and earthly possessions; and

Whereas, The Government of Great Britain denied her subjects the right of expatriating themselves, or forming a new or separate Government, which brought on a long and bloody war for the enforcement of said right, resulting in favor of the patriots of 1776 and the establishment of the Government of the United States of America and overthrow of British authority over her expatriated subjects; and

Whereas, The Constitution and laws of the United States of America give equal rights of liberty and protection to the adopted citizens of *all* nations, as to those of native birth, protecting them in their lives and liberty, whether at home or abroad; and

Whereas, A number of naturalized American citizens have been unjustly seized by the British authorities in England, Ireland and Scotland, thrown into prison and treated as felons, without any specific charge being brought against them, and where they still remain; and

Whereas, It has been asserted within the last month by a British Judge "that the Government of Great Britain does not recognize the right of her subjects to become citizens of the United States," and acting on such decision, a British jury have hanged, transported, and condemned to hard labor American citizens; and

Whereas, This flagrant outrage on naturalized American citizens demands immediate action by the Government of the United States in behalf of her adopted citizens now immured in British jails; be it, therefore,

Resolved, That we, as Irish born citizens, having taken a solemn oath, required of us before being received as citizens of the Great Republic, adjuring all allegiance whatever to the government of Great Britain, demand, in the most emphatic and respectful manner, whether we are to be protected or not.

Resolved, That we, as naturalized citizens, who, by thousands, have for the last four years freely offered up our lives and property in support of the laws, Constitution and perpetuity of the American Union, have a just right to demand of the Government of the United States immediate action to protect our countrymen now unjustly imprisoned by the British Government; and,

Resolved, That as naturalized citizens who have proved their fidelity to the Union on many a hard-fought battle-field, we would be traitors to our country and recreants to our former companions in arms, if, whilst we implore the interference of our Government, we should not take other action after waiting a reasonable time; therefore,

Resolved, That although having full confidence in the honesty of the Government of our adopted country, we shall not cease making preparations to exact by force, if necessary, from the British Government, full and ample reparation for the murder and imprisonment of our fellow citizens and countrymen.

Resolved, That a copy of these resolutions be sent to our representatives in Congress, and to General Banks, Chairman of Committee on Foreign Affairs.

On motion Messrs. D. O'Neill, Col. R. Biddle Roberts, Gen. J. B. Sweitzer, James Blackmore and John W. Riddell were appointed a Committee to forward to Congress the above resolutions, after which the meeting adjourned.

Sudden Death of an Estimable Lady.

It is with no ordinary sorrow that we announce this morning the sudden death of Mrs. Mary A. Miller, widow of Samuel Miller, late of North Fayette township, mother of our esteemed fellow citizen, Jacob H. Miller, Esq., and Rev. S. W. Miller, pastor of the Presbyterian Church at Cedar Rapids, Iowa. The deceased lady retired on Saturday evening last, apparently in her usual health, making no complaint of any indisposition, and was found dead in her bed next morning. She had, for a long time past, suffered from rheumatism, and it is supposed that the disease attacked her heart, causing her sudden death. Mrs. Miller was a christian lady, beloved by all who had the pleasure of her acquaintance. She was kind, charitable, generous and good, and her unexpected death is a source of deep sorrow to a large circle of friends and acquaintances.

Bursting of an Oil Tank—Heavy Damage.

About three o'clock yesterday morning, a large tank attached to the Standard Oil Works, opposite Sharpsburg, filled with water, bursted, and considerable damage resulted. The tank was of iron and also new, the water having been run into it for the purpose of testing its strength. The tank was situated near the refining house, and the heavy body of water broke through a wall of the building, carrying away or destroying several thousand gallons of oil. A building on the opposite side was also broken through and great damage done. It is estimated that the loss will reach four thousand dollars.

Grand Concert.

Gustave Blenner, at the request of a number of persons, will repeat his grand concert at the Pittsburgh Female College, Friday evening, on which occasion he will be assisted by Cora Brown, Nannie Ernest, Mrs. Blenner, and the pupils of the school. The former concert was a decided success, and musical critics pronounced it one of the best musical entertainments ever given in this city, and while the approaching one cannot fail to equal it, the probabilities are that it will excel the former in many respects. Tickets for sale at Mellor's and Kleber's music stores. The entertainment will commence at 7½ o'clock.

Letter Carriers' Report.—The report of the letter carriers of the city for the month of November has been furnished us. By it we learn that there have been delivered 114,187 letters and papers during the month, or an average of 4,392 per day. From these figures and a knowledge of the immense quantity of mail matter deposited in boxes and called for at the general delivery window, it will appear how large is the business transacted at the Pittsburgh postoffice. During the same month the carriers collected for mailing 39,737 letters and papers. In the central or business portion of the city there are five daily deliveries and collections.

Who Stole the Cow.—William Boyd, a resident of Indiana township, lost a fine cow a few weeks since, and after several days' search gave her up as lost. A few days ago, however, he accidentally found the cow in this city, and at once claimed her. Mr. Flinn said he had purchased the cow several days previous from Jno. Marray. Mr. Boyd yesterday made information before Alderman Taylor charging Murray with larceny, upon which he was arrested and held for a hearing.

Union Presbyterian Convention.

Another Convention, similar to the one held on Thursday week in Allegheny City, was held in the Second Presbyterian Church last evening, Rev. W. D. Howard, D. D., pastor of the church, presiding. He gave out a psalm and read a portion of Scripture, after which Rev. J. E. Easton, D. D., led in prayer. The gentlemen present were rather slow to speak, at first, but after they got warmed up by the singing of a few psalms and the offering up of prayers, the matter of Union was discussed with considerable animation.

Rev. J. McMillan thought there was too much distrust manifested by the brethren present. He believed there was no practical difficulty in the way of union.

Mr. George Albree said the idea of uniting the four branches of the Presbyterian Church represented in the Convention was a glorious one. They should unite that they might battle more efficiently against error.

Rev. S. B. Reed thought the object of the meeting was to consider the basis adopted by the Philadelphia Convention. He had never seen it, and hoped if it was in the possession of any one present it would be read for information.

Rev. Joseph R. Kerr had seen and read the basis again and again, and he could say Amen to it.

Rev. John Douglas, D. D., believed that the remark made by Mr. Reed was an important one. He had the basis in his hand and would read it. After reading it he asked, Is Union among the churches desirable? It is, for Christ prays for it. The churches are witnesses for Christ, and the world will not believe in him, until by their organic music they shall show that there is no conflict in their testimony. Is Union practicable? He believed it was. When they compared notes their difficulties were not so insurmountable as at first sight they appeared. There was a time when the General Assembly of the Presbyterian Church in this land sang nothing but the psalms of Scripture. Could not the churches all go back to the point of divergence on the psalmody question? Moreover, the General Assembly had only "allowed the use" of the Imitations of Watts. Why not, for the sake of union, go back and occupy the position which she once occupied? For himself, he could stand on the basis adopted in Philadelphia, but for those who could not, every thing should be done that can be done conscientiously.

Dr. Campbell was glad to hear that the reverend gentleman had stated some of the difficulties in the way of union. There were others. According to the statement of the Chairman, each one in the United Church was to sing psalms or hymns as he pleased. He did not think there could be much union in that. Then inter-communion was another difficulty. He was present not long since in a U. P. Church when the Sacrament of the Lord's supper was dispensed. He liked everything that was said, even to the "fleecing of the tables." But he would not be allowed to commune with the congregation, because he belonged to another denomination, although he was recognized as a christian brother. He thought the matter of inter-communion was an important one to be considered.

Dr. Douglas asked the chairman if there were not congregations in the Old School Assembly which sang nothing but the one hundred and fifty psalms? Dr. Howard answered in the affirmative. Then, said Dr. D., there can be union among the four denominations, if the same practice should obtain in the United Church. As for inter-communion, the organic union by the ecclesiastical bodies will remove that.

Rev. C. A. Dickey was in favor of union. But men feared it because they were getting nearer to it. It was beneath the shadow of that great event that so much backwardness and fear of approaching the subject had been manifested to-night. But why should psalmody be allowed to stand in the way? He would rather, at any time, go round a mountain than undergo the immense task of shoveling it away. Let us not attempt to shovel it away, but go round it.

Dr. Howard then made a few remarks. He said he would allow his psalm singing brethren to sing the scripture psalms until they sing the "Song of Moses and the Lamb" in heaven. But he would ask for others the liberty of singing something else besides.

On motion the Committee appointed at the last meeting to make preparations for holding another meeting.

The Convention then adjourned after singing a doxology and the pronouncing of a Benediction by Dr. Howard.

Scientific Lectures.

Editors Gazette: Your article on a course of scientific lectures meets with my hearty approval. I often look back with pleasure some twenty years, to the time when "standing" in a store at ten dollars a month and my board, I expended six dollars on a course of lectures on anatomy, delivered by Dr. Morrell in the basement of Dr. Presley's church. The lecturer on that occasion used a manakin to illustrate the subject, and I still think I see that figure as the lecturer proceeded with his subject, and I attribute much of the good health I have since enjoyed to that course of lectures. I also attended the first lectures on electricity and the telegraph, delivered in Pittsburgh by Prof. Morse, and many other instances I could give of the advantage of a course of lectures all connected with some particular scientific subject, such for instance as the history of the steam engine, the different plans for applying the powerful agency of steam, and also the theory of building material, wood, stone, iron, &c., &c., and the different styles of architecture, the influence of light on health as applied by the different styles of architecture.

These and a thousand and other subjects might be named, every one of which could be made the subject of a course of very profitable lectures, and far superior in point of interest and utility to the disjointed lectures with which we have been formerly treated. X.

Resignation and Election.—Mr. Charles F. McKenna, the gentlemanly and efficient Librarian of the Catholic Public Library and Reading Rooms, has resigned his position in order to embrace the legal profession, being fully prepared for admittance to the Bar. At a meeting of the Board of Directors the resignation was accepted, and John H. Callahan, Esq., of Allegheny City, was elected to supply the vacancy occasioned. Mr. C. is a gentleman of high literary qualifications, and will admirably fill the important position.

Trouble Increasing.—Deputy Mayor Owston yesterday issued four commitments, two against William Johnston and two against George Walter, for larceny, which were placed in the hands of Warden White. Johnston and Walter, it will be remembered, were arrested on a charge of larceny and committed to jail, from which they managed to escape some four weeks since, but were recaptured. The informations are made by Mr. Laughlin and others who were robbed by them during the few days they were at large.

Arrested.—On Sunday, Nov. 17th, a mail bag was stolen from the platform at the Union Depot and carried some distance behind a fence, where the thief was in the act of cutting it open when he was observed by some of the employees of the road, but managed to make his escape. We published an account of the matter the following day, but did not give the name. Yesterday John McCartner was arrested on a warrant issued out of the United States Court, charged with the offence. He will have a hearing to-morrow.

Important Meeting of the Y. M. C. A.—We would call the attention of our Manchester friends to the adjourned meeting to be held this evening, at 7 o'clock, in the new Methodist Church, corner Manhattan street and Ohio avenue, under the auspices of the Young Men's Christian Association, for the further consideration of the establishment of a reading room in that vicinity. All interested in this laudable undertaking are cordially invited to attend.

Severe Accident.—Napoleon Haynes, of Johnstown, received a very severe and almost fatal wound a day or two ago. He was engaged at one of the turning lathes in his pump manufactory, when a heavy chisel broke, a large piece of it striking him above the right eye, cutting through the eyebrow and eyelid and severing an artery. Dr. Lowman dressed the wound. This is the second accident of the kind which has happened to Mr. Haynes.

Ristori Coming.—This great actress will again visit Pittsburgh. She will appear three nights at the Academy of Music, commencing on the 11th inst., in the characters of Medea, Elizabeth and Marie Antoinette.

The Nicolson Pavement, on Wood street, has been completed to Fifth street. The work finished is pronounced by those presumed to know as very superior and substantial.

Nearly all of those wounded by the recent boiler explosion have sufficiently recovered to be able to walk out and come to resume their work.

Eighth Ward Primary Meeting.

The Republicans of the Eighth ward held a primary meeting last evening for the purpose of naming candidates for nomination to the ward offices. John A. Sergeant, Esq., presided, and Mr. Thos. Neely acted as Secretary. The following nominations were made:

For Select Council—(two to be nominated)—Samuel Morrow, Edw. S Wright, Henry E. White.

For Common Council—(three to be nominated)—James Mawhinney, Joseph Caskey, Richard W. Roberts, Henry Meyer.

Alderman—Eustace S. Morrow (no opposition.)

Judge of Election—(one to be nominated)—John Flinn, James Ewing.

Inspector—Andrew J. Moon, (no opp.)

Return Inspector—(one to be nominated)—Alexander McDonald, Robert Fowler, David Fawcett.

School Directors—(3 years; two to be nominated)—Thomas Neely, William H. Stimple, Daniel Evans, and John L. Lewis.

School Directors—(1 year; one to be nominated)—John Wrigley, George W. Dithridge.

Assessor—Christian King, (no opp.)

Constable—A. J. Moon, (no opp.)

The primary election for the purpose of making final nominations will be held on Thursday afternoon next, between the hours of four and seven o'clock. The meeting last night appointed Messrs. John Flinn, W. J. Flinn, Robert Fowler and Alexander McCabe to conduct the forthcoming meeting.

Reckless Handling of Firearms.

On last Thursday a young man named Harry Martin, who had been a good soldier for three years in the Eleventh Pennsylvania Cavalry, called at the public house of Valentine Maulsy, at Wilmore, Pa., and while there entered into a good-humored dispute with Maulsy concerning a gun in the hands of the latter—Martin declaring that the gun was good for nothing, that it would not shoot a hog. Maulsy drew the gun to his face, cocked it, and said "I will show you." The trigger was pulled, and the ball with which the gun was charged entered Martin's right eye lodging in the back of his head. Martin lived only twenty minutes. Maulsy expressed great regret at the result of his very rash act. A coroner's inquest, under the direction of Esq. Miller, rendered a verdict of accidental shooting—it appearing that Maulsy did not know that the gun was loaded. Maulsy and the deceased had always been on friendly terms. The deceased was the only son of a widowed mother and was to have been married next week. He was a citizen of Croyle township, Cambria county.

A Very Novel Case.

District Attorney Duff, in the Quarter Sessions yesterday, presented an information made by a husband against his wife for abandonment, and asked the Court to dismiss the case, as the law authorized no such proceeding. The information was taken by Justice Michael Lipp, of Birmingham, and read thus: "Charles M. Herald deposeth and saith that Mary Ann Herald then and there in said borough deserted me without cause for a separation, and upon request to come and stay with me she declined and stays in the house with her parents. * * * and said she would never live with me any more." The Court complied with the request to dismiss the case. The magistrate doubtless entertained the case upon the principle that it was a poor rule that would not work both ways, and if a wife could sue for abandonment, why not a husband? His Justiceship, like some others we know of, is not always governed in his "court" by the law as found in the books, but has a *common* law of his own, a practice which has become so *common* that our magistrates generally have come to be regarded as anything else than conservators of the peace.

Hazard's Powder,

So justly celebrated for its strength and cleanliness, can now be bought in large or small quantities of his agent, Arthur Kirk, 172 and 174 Federal street, Allegheny.

This powder as now sold is the result of forty years experimenting, and is pronounced by the best judges the best in market—either for mining or sporting purposes, and is put up in either metal or wooden kegs, as the customer may wish. The blasting powder is marked *Mining F. FF. and FFF*, is a very superior article and when put in wooden kegs is much safer, and retains its strength longer than any powder in metal kegs. When we add to all this that Mr. Kirk, as soon as he was appointed agent, at once put down the price two dollars per keg, and is now selling it at $4.50 per keg, with a liberal discount to dealers and consumers by the car load.

In view of all this it will be useless for us to urge our readers to send their orders to him when they will receive prompt attention.

The "Schomacker" Piano.

In *volume, purity of tone* and *great power*, combined with superior workmanship, they are wholly unequalled. The present new scale combines all the best modern improvements known in the construction of the Piano Forte. For thirty years Mr. Schomacker has personally superintended his extensive manufactory in Philadelphia. They stand in tune longer, and wear better, as years of experience has proved, than any other make. The two splendid *Schomackers* at the Orphan Asylum opening on Thanksgiving Day were greatly admired by all present, both as to tone and beauty of finish. Parties who intend purchasing a first class *Piano*, and wish to save from $50 to $100, can do so by calling on the Agents, Barr, Knake & Buettler, No. 12 St. Clair street.

We have received "Every Saturday" for Dec., 7th, and the "Atlantic Monthly" for December, from Messers Ticknor & Fields, of Boston. There are but four articles in Every Saturday, but they make up in interest and value what they lose in number. In the Atlantic, among the most entertaining contributions, are "Our Pacific Railroads" and "Bye-ways of Europe." Messers. Ticknor & Fields always issue good things, and these do not jeopardize their reputation.

Neat Lithographing.—We have received from the well known lithographers, Messrs. Singerly & Gleis, a number of specimens of remarkably well executed cards, calendars, bonds, stock and deposit certificates, checks, notes, drafts, circulars, &c. This firm employ none but the very best engravers, and their work is a credit to the city. Their extensive and complete establishment is at No. 74 Third street.

Kept the Watch.—Thomas Sullivan made information before Alderman McMasters, yesterday, charging Thomas Dillon with larceny by bailee. He alleges that he purchased a watch from Dillon for fifteen dollars, but after he had paid the amount agreed upon, Dillen refused to deliver the watch, and kept the money. The parties reside in Lawrenceville. A warrant was issued for the arrest of the accused.

No More Passes.—The new Board of Directors elected yesterday by the stockholders of the Pittsburgh and Connellsville Railroad Company passed the following resolution relative to issuing passes:

Resolved, That any general issuing of passes by this company be and the same is hereby prohibited.

Will Meet.—There will be a meeting of the Union Republican Executive Committee of Pittsburgh this afternoon at two o'clock, at Maj. A. M. Brown's law office, No. 114 Fifth street. As business of importance is to be transacted all the members are requested to be in attendance.

Acknowledgment.—The managers of the Home for the Friendless gratefully acknowledge the donation of sixty-six dollars and eighty cents, from the First Presbyterian Church, Pittsburgh, through Mr. Joseph McKnight, from collections taken on Thanksgiving day.

Surety of the Peace.—Patrick Carroll yesterday made information before Alderman Taylor, against John O'Brien and wife, for surety of the peace. He alleges that they threatened him and his wife with violence. A warrant was issued for the arrest of the O'Briens.

Harper's Bazar.—A full number, and interesting to the votaries and hangers on of dress and fashion, as well as to others who are not even novices in the ways of the beau monde, has been laid on our table by Mr. Pittock.

The Republicans of the Fourth ward will hold their primary meeting to nominate Councilmen and other ward officers this evening.

THE PITTSBURGH GAZETTE

The largest daily paper in the State of Pennsylvania, enters the 82nd year of its existence with increased facilities for disseminating the current news of the day, and for rendering good political service in the important Presidential Canvass of 1868. The forthcoming session of Congress promises to prove one of the most important held since the formation of the Government, and the proceedings will be anxiously watched by the intelligent masses. In view of the deep interest centered in the proceedings, the proprietors of the GAZETTE have made arrangements for daily dispatches and letters during the session, from a highly intelligent correspondent, who enjoys the confidence and friendship of the leading members of the Senate and House, the heads of the various Departments, and the leading politicians who frequent Washington, so that readers can depend on receiving the first, fullest and most reliable intelligence from the seat of Government.

The proceedings of the State Legislature, at its forthcoming session, will also prove interesting, inasmuch as many questions of importance will come up for legislation. The GAZETTE will keep at the State Capital, during the entire session, an intelligent and faithful correspondent, who will promptly report the proceedings by mail and telegraph.

It is the only political journal of Pittsburgh which faithfully reflects and steadily advocates the principles held by the Union Republican Party, and interpreted by a loyal Congress.

It gives as much reading matter as any paper sold at twelve dollars per annum, while its price is but eight, being the cheapest as well as the largest newspaper in the Commonwealth.

With the enlargement, every department has been strengthened. The high character of its editorial columns will be maintained, and all questions of public importance will be fearlessly discussed.

The news department will be kept up to the requirements of the day, and in condensed items will faithfully mirror all the transactions worthy of note of the City, State, Country and world at large, and maintain for the GAZETTE the reputation of a live, enterprising and first class family and commercial newspaper.

Ample space has been reserved for market reports, which can at all times be relied upon as correct, as the current quotations for manufactures, farm products, cattle, &c., &c., are daily gathered from actual sales, by faithful and efficient reporters.

The river news is collected with care, and will prove a very interesting feature of the GAZETTE.

The financial news department has been placed in charge of an able and experienced banker, who will render it quite an attractive and useful specialty to bankers, brokers and business men generally.

The religious department will receive the attention due its importance, and will be so conducted as to be pleasing and readable to members of all religious denominations.

The agricultural, art, science, literary, personal and other departments of the paper will be conducted in a manner which will prove satisfactory to the reader.

TERMS OF THE DAILY GAZETTE.

Three Months	$2.00.
Six Months	4.00.
One Year	8.00.

Delivered in Pittsburgh, Allegheny and all the adjacent Boroughs for 15 cents per week, payable to Carriers.

THE WEEKLY GAZETTE.

The WEEKLY GAZETTE has been enlarged to the same size as the Daily, and is now the largest, cheapest and best weekly family newspaper in the State. It should be in the house of every farmer, mechanic and business man. It gives each week forty solid columns of current news by telegraph and mail, the leading editorials of the daily, and a choice selection of literary and scientific items, together with everything important pertaining to the world of politics. Its agricultural columns will be edited in such a manner as to find favor with the farmer and gardener. The market reports of the WEEKLY GAZETTE are by common consent acknowledged to be the standard authority for both buyers and sellers, and in commercial circles in Western Pennsylvania, Eastern Ohio and Western Virginia are without equal. The files of the GAZETTE are used exclusively by the Civil Courts of Allegheny county, as reference in important issues, to determine the ruling prices in the markets at the time of the business transaction in dispute.

Our Agents will favor us by getting up their clubs at once, and not allowing their present ones to expire, as we are anxious that none of our readers should be deprived of a week's news. Additions to clubs can be made at any time, at yearly rates. Postmasters and Merchants are requested to act as Agents.

TERMS FOR THE WEEKLY GAZETTE.

TUESDAY, DECEMBER 3, 1867.

SELF-CONTRADICTION OF PARTIES.

When President LINCOLN, without consulting the representatives of the States and the People, adopted that scheme of Reconstruction which has since been known as the "President's Policy," the Democrats, with one consent, denounced him as a bold and dangerous usurper. Their newspapers, their popular declaimers, and such of them as held seats in legislative assemblies, whether State or National, were clamorous and vehement on this point, altogether beyond precedent, in this country, and nearly approaching the vituperative energy and pungency of the French revolutionary tribunes. In all possible forms of objurgation they maintained that what the President was doing was in flagrant violation of all law, constitutional and statutory; was, furthermore, in contravention of the essential and vital principles of popular government, and, if permitted to be followed out, would powerfully tend to the establishment of a permanent directorship. With great cogency they appealed to the whole people, and particularly to the Republicans, as constituting the party of the majority, to aid in resisting a Policy at once illegal and enormous, persistence in which would justify a resort to revolutionary means of redress.

When President JOHNSON accepted this Policy of his predecessor, and proceeded with singular force and audacity to carry it into full effect, the Democrats renewed their outcry. The denunciations they heaped upon him were brought to white heat, and blistered or scorched to crisp as they fell. He was depicted as a tyrant, unsurpassed in the history of the race. To endure him was proclaimed to be the depth of political degradation; to cripple his power, or to depose him, was avowed to be the primest of patriotic duties.

In the due order of events Congress at length assembled in regular session. It almost unanimously condemned the President's Policy, not simply as inexpedient, because prejudicial to the general welfare, but as unlawful, dictatorial and revolutionary. To be sure, the Democratic and Republican members did not concur in judgment as to what should be done with the revolted States, but they were almost unanimous that what the President had been doing was improper, mischievous, unconstitutional, imperial.

Congress, by law, set aside all the President had done in this matter. Nor did it stop there. The Judiciary Committee of the House of Representatives was instructed to inquire whether the President had not performed acts calling for his impeachment. This suggestion was significant.

Considering what the Democrats had for months been charging upon the President, it might naturally have been inferred they would eagerly join in prosecuting this inquiry and in bringing the offender to punishment. Having long and intimately associated with them, the President formed a different conclusion, and promptly acted upon it. He repudiated some of the features of his Policy and accepted some of the ideas upon which the Democrats were insisting. What was more potential he took them into his counsels, and divided among them the patronage at his disposal. Instantly a vast change was discerned in their language and demeanor respecting him. In their estimation he was no longer a bad and dangerous man, blotched with official and personal crimes, but an eminent statesman and magistrate, and a citizen of lofty virtue. All charges made against him by Republicans were now attributed by them to partizan malice, and adjudged to be unadulterated political slang, of which the promulgators ought to be heartily ashamed.

While the Democrats were thus undergoing a complete transformation, the Republicans held, with marked unanimity, steadily on their way. Their representatives in Congress proceeded to initiate amendments to the Constitution, and to enact laws for reorganizing the revolted States, and for circumscribing the action of the President. Most, if not all of these measures, were heartily endorsed by the Republican newspapers and the Republican Legislatures or masses as necessary and salutary. To such a pitch did detestation of the President and his conduct rise amoung them, that there was a strong demand for Congress to remain in constant session in order to watch and thwart his evil intentions. This feeling was largely participated in by the Republican congressional majority; but after full consideration the suggestion was not adopted, though provision was made for the reassembling of the Houses if any emergency should be created by the President.

Neither Congress nor the country had long to wait for this emergency. Scarcely had Congress adjourned before the President commenced a series of orders designed to make of none effect several of the recent laws. A flame of indignation burst out spontaneously everywhere in the republican ranks. On all sides, republican journals sounded the alarm. The immediate convocation of Congress was resolved upon. By telegraph members were summoned from Europe, from the central regions, and from the Pacific slope. When the Houses reassembled there was no mistaking the feeling on the Republican side. It was strongly for the impeachment of the President as a measure of justice and necessity. The Houses refused to adjourn *sine die*, but adjourned to date, that is, remained in permanent session. So prodigious was the occasion considered to be.

From this special session Republican members went home to share in the canvass preliminary to the autumnal elections. Many of them, who had previously been conservative, confessed to a change of convictions, and in addressing the people boldly proclaimed that the impeachment of the President was required for the vindication of the laws and the security of the government.

Last week Congress refused to adjourn so as to put a perceptible space between the expiring session and the incoming one. It would not trust the President for so much as a day.

Yesterday the new Congress assembled, and it is announced that only a lean minority of the Republican members countenance impeachment. As vast a change is apparent in the tone of the Republican newspapers. This may well excite the profoundest surprise.

Was the Republican demand for impeachment bottomed on nothing but party rivalry? Did no considerations of national consequence incite thereto? Or, shall it be confessed that Republican Senators, Representatives and journalists were entirely mistaken as to the essential facts of the case? Was the President, even when most bitterly assailed, simply making a choice between different policies, either of which he was free to select under the Constitution and Laws? Was the recent Republican clamor against him like the former Democratic outcry, only an ebullition of party disappointment or rancor? These questions will be carefully considered, if not now, then through coming ages, in the history of the Republic.

It will not avail to say that the Report of the Judiciary Committee does not embody facts of sufficient gravity to warrant the arraignment of the President. That Report contains all the charges upon which both the democrats and republicans stood when they united in condemning the President's Policy as unjust, illegal and pernicious. Every inteligent man in the nation knows that those charges are not fictitious, and that the evidence by which they are supported is abundant and incontrovertible—a vast proportion of it being in the form of official documents.

Beyond this the Report specifies other causes of impeachment of great weight, and generally known, in Congress and out, to be real. On the whole, it may truly be affirmed that no Chief Magistrate of a nation was ever arraigned on charges of greater moment, or which were supported by clearer evidence than is easily attainable in this case.

What has put different eyes so suddenly into the heads of members of Congress and leading Republican journalists? It has been explained why the Democrats changed front, eating complacently all the bitter words they had iterated. How shall the Republican retreat be solved? A panic as clearly overtook them as one did the Federal army at the first battle of Bull Run—only in the present instance the panic is with the leaders and not with the masses. History contains many pages defiled by cowardice in high places, but not a page more shamefully blurred and defaced than that which records the ignominious rout of the Republican chiefs in their contest with the President.

RECONSTRUCTION.

The progress of reconstruction, at the South, is such as to justify our opinion, given immediately after the election, that, so far as the Congressional plan of restoring the States is concerned, the "great reaction" was an afterthought. Every day's report increases the confident hope of the friends of restoration that next spring will see all, or at least a large majority, of the ten States represented in Congress, by thoroughly loyal men—men who were tried in the fires of persecution, for their loyalty, and not found wanting. In North Carolina the question of a Convention has been squarely fought out, and wrought out, on its merits. The white Conservatives abandoned the policy of inaction, and, led by their ablest men, having control of the State, county and town offices, and three fourths of the press, opposed a Convention, and polled every vote they could muster. They carried several counties, but the State is Republican by fifty thousand majority. After this well fought battle, Ex-Gov. HOLDEN, in the Raleigh *Standard*, says:

"Every fire-tried white Republican in the State feels grateful to the colored people for the firmness and unanimity with which they have stood by the Republican cause. Our colored friends have shown themselves worthy, not only by the remarkable propriety of their behaviour in the campaign and at the election, but they have demonstrated to the world that they are possessed in a high degree of that chief requisite to manhood and citizenship, to wit: firmness and dermination of character. No people, in any civil contest, have ever met and overcome greater temptations than they have. They have been equally unmoved by artifice, trickery, falsehood, persuasion, offered bribes and threats. They are poor and landless, but the rich oligarchs could not succeed in buying more than one of them in ten thousand. They have preferred the jewel of liberty to everything else."

The Alabama Convention will shortly have its labors completed. Of it Hon. F. W. CONWAY writes: "I was greatly cheered on entering the Capitol and finding so creditable a representation of the Radical party. I may say that it will compare favorably with any similar body I have ever seen. There are eighteen colored delegates out of one hundred. This does not look much like 'negro supremacy.' The business of the Convention is conducted with great harmony, and the kindest spirit prevails."

From the extracts of their work laid before our readers, from time to time, they will readily concur in the general opinion of loyal men, both North and South, that the new Constitution of Alabama will be a vast improvement on any it has yet framed.

Of the members of the Georgia Convention just elected, the *New Era*, published at Atlanta, says they are "true and tried, and every way qualified—possessing nerve, courage, intellect, social standing, and integrity more than sufficient for the faithful, prompt and satisfactory discharge of the very grave and responsible duties devolving upon them. We know that active and persistent efforts have been made, and are continued, to forestall public opinion, and create unfavorable impressions against them. But it will prove of no avail. 'By their works ye shall know them.' In spite of all that the discontented, disappointed tories and anti-Unionists may say or do, it will be found that the Convention contains the necessary brains and comprehensive statesmanship and independence to frame as good a Constitution as the State ever had."

Both the editor of the Raleigh *Standard* and the Atlanta *New Era* were Democratic leaders before the war.

In Arkansas the Republicans have elected sixty of the seventy-five delegates to the Convention, and the question of a Convention was carried in the affirmative by a decisive majority. Congratulating the State on the assurance of a speedy deliverance from the chaos of disunion, the Little Rock *Republican* says:

"Hereafter the advocate of national principles, and the supporter of the cause of the Union, can boldly proclaim his principles. Rebellion is dead! The dark and evil days are past, and better and brighter ones are dawning. Treason is becoming odious, even in Arkansas! Verily, here is a matter of profound congratulation.

"We take occasion here to pay a brief but merited tribute to the colored citizens of Arkansas, who have so signally vindicated the confidence reposed in them by the National Government, and so honorably assisted in bringing about the grand triumph in the State. In the late struggle, in which they had so much at stake, they have been tried and found true! Their quiet and orderly conduct, their courage, loyalty, and devotion have been clearly and completely demonstrated. Not all the threats, the incessant coaxing, or the insidious appeals of their "best friends," could swerve them for a moment from the path of duty, and the road to self preservation. They knew their real friends, and instinctively shunned the hypocritical and proscriptive party whose policy would consign them to political degradation."

The result, thus far, certainly vindicates the wisdom of Congress in calling to the permanent support of the national government, in the South, the men upon whom they called in its hour of greatest peril, and who responded with such hearty good will and well approved courage. How cruelly unjust it would have been for the loyal people of this country to have left our faithful allies in the war to the vindictive vengeance of the common foe? The necessity of arming the Southern negro with the ballot, in order to protect him from the vengeance of rebels for his loyalty during the war, was proved by hundreds of murders of unoffending negroes by their rebel neighbors, and by the systematic disarming of colored Union soldiers and the rearming and organizing of rebel militia, under pretext of keeping the peace. If President JOHNSON deserves impeachment for anything it is pre-eminently for this action—for this virtual delivering up, surrendering of victorious Union men to their defeated, rebel foes.

Yet, after all the criminal delay in granting protection to Southern Union men, white and black, the Reconstruction Act is lifting these communities to a solid basis of peace and prosperity, and in this work it is public justice that the men for whose enslavement the war was originated, should, by it, be raised to the full dignity of citizenship, and that those who met the enemies of the Government face to face and in bloody conflict for its authority, should, by their loyal ballots, preserve these States from ever again being led into secession.

Every appeal is made, by the enemies of Reconstruction, to the negro hatred which has so long controlled our legislation, and we are told of the degradation of having, in Congress, the representatives of negro constituents. Under the old *regime* twenty members of Congress represented negro slaves. Will the representatives of negro freedmen be any more disagreeable or degrading?

We shall know better how we like them this time next year, for, four at least, of the ten States, will come in this winter, notwithstanding the frantic appeals of rebels and their sympathizers to save the "lost cause" from such deep burial, and a sepulchre of which the doors could never more be opened.

* * *

It is quite surprising how many letters are received by editors of Democratic papers from "Old Line Abolitionists," who are protesting against negro suffrage. Old Line Abolitionists were not wont to be ashamed of their ways; and those of them now protesting against their principles should give us their names. We incline to doubt the abolitionism of an Abolitionist introduced under a thin veil by an editor in full accord with rebellion in defence of slavery. All the Old Line Abolitionists of whom we know anything are agreed not only that the slave should be free, but that he should have the means of maintaining his freedom.

PAIN IS A REAL THING, and no phantasy. What is more excruciating than the misery of a toothache or an earache, too often proceeding from a neglected grinder that might have been kept perfect if the victim had used WARD'S FLUID AND POWDERED DENTIFRICE. Sold wholesale and retail by JOSEPH FLEMING, No. 84 Market street, and all druggists.

RUINS.—We scarcely pick up a paper in which the eye does not meet with this heading—the ruins of Pompeii, Nineveh, or some other monument of the past. And how little do we think that every day there is decay leading to ruin rapidly progressing around us. The ruin of a fine set of teeth is to its owner a great loss, but one that can be prevented by a free use of WARD'S FLUID AND POWDERED DENTIFRICE. Sold wholesale and retail by JOS. FLEMING, No. 84 Market street, and all druggists.

The Great Secret.

The grand secret in medication is to help Nature. SUSTAIN and REGULATE—these are the Alpha and Omega of the only theory of cure that has common sense for its basis. If the nervous system is shattered, the muscles weak, and the mind, like the body, in a state of partial collapse—what is it best to do? Reason teaches us the answer: BUILD UP YOUR MAN. Brace him as you would a tottering edifice. The pabulum he needs is a Tonic Alterative. Bring him up out of the depths of Debility and Despondency with HOSTETTER'S BITTERS. They cannot injure. A child may take them in doses suited to its years, without the possibility of harm. The enfeebled vital powers are as sure to respond energetically to their action as the wilted grass is to erect its blades under the vivifying and refreshing rain. In all cases of debility the BITTERS are absolutely required. There is no substitute or succedaneum that will fill their place. Resort to the most wonderful of modern tonics, and all will be well. Bear in mind that in Dyspepsia, Intermittent Fevers, Billious Disorders, and Affections of the Nerves no other medicine will produce one tithe of the good effect that invariably follows the use of this excellent INVIGORANT AND CORRECTIVE.

Important to Country Merchants.

Merchants visiting the city to lay in their supply of goods would do well to call at the great medicine emporium of DR. KEYSER, 140 Wood street, and put in a supply of his invaluable PECTORAL SYRUP and BLOOD SEARCHER, the former of which has been used in the Doctor's practice for over twenty years, and has saved thousands from the consumptive's grave. DR. KEYSER'S PECTORAL SYRUP will invariably give satisfaction to all persons afflicted with coughs and hoarseness and the usual pulmonary maladies incident to this season of the year, whilst DR. KEYSER'S BLOOD SEARCHER is daily curing some of the most hopeless cases of disease, of a class little cared for by physicians, and usually deemed incurable, such as cancers, white swellings, scrofulas, tetters. It is exceeding proper now, when the change from fall to winter is about to occur, that most of those who are debilitated and prostrated by sickness, should resort to some such a remedy as DR. KEYSER'S BLOOD SEARCHER, which will not only cleanse and purify the natural channels of the human system, but at the same time sweep off debility and reinstate vigor and nervous energy. It is wholly unlike most stimulating compounds and bitters, which for a while spur, but afterwards sink into greater prostration. Country merchants and farmers cannot do better than to purchase from half a dozen to a dozen of Dr. Keyser's medicines, as in doing so they will confer lasting benefit upon all whose health and lifes has been prolonged and improved. These two medicines of DR. KEYSER'S have acquired a hold on the affections of the people commensurate only with their superlative merits. Ask for DR. KEYSER'S BLOOD SEARCHER and take no other, at 140 Wood street. Resident consultation office, 120 Penn street.

GENERAL NEWS.

—It is the commonly received notion that hard study is the unhealthy element of college life. But from tables of the mortality in Harvard University, collected by Professor Pierce from the last triennial catalogue, it is clearly demonstrated that the excess of deaths for the first ten years after graduation, is found in that portion of each class inferior in scholarship. Everyone who has been through the curriculum knows that where Æschulus and political economy injure one, late hours and rum punches use up a dozen; and that the two little fingers of Morpheus are heavier than the lions Euclide. Dissipation is a swift and sure destroyer, and every young man who follows it is as the early flower exposed to untimely frost. Those who have been inveigled in the path of vice are named "Legion," for they are many—enough to convince every novitiate that he has no security that he shall escape a similar fate. A few hours of sleep each night, high living, and plenty of "smashes" make war upon every function of the human body. The brains, the heart, the lungs, the liver, the spine, the flesh, the limbs, the bones—every part and faculty—are overtasked, worn and weakened by the terrific energy of passion and appetite loosed from restraint, until, like a dilapidated mansion, the "earthly house of this tabernacle" falls into ruinous decay. Fast young men, right about!

—The Portland (Me.) *Press* says: A correspondent living in the eastern part of the city gives us the particulars of an encounter that he had with rats a few evenings since. No animal will fight with more desperation than the rat when cornered. This young man went into a room where these pests often resorted for subsistence, and found it well occupied by some of the largest size of the vermin. He closed the door and succeeded in confining five of them that, upon finding there was no escape, determined not to give up without a battle. He had but one hand at liberty, holding in the other a lamp, and in this manner advanced upon the raiders. The rats, probably seeing the disadvantage under which he labored, met him half way and fought with great desperation until four were stretched dead upon the floor. The fifth retreated to a shelf from which he made a jump for the young man's throat, who dodged him, and striking out with his right hand, hit the rat with such force as to kill him instantly. Since the great fire the people in that part of the city have been troubled a great deal with these disagreeable animals.

—A correspondent of the *Southern Opinion*, who has been to see the Black Crook in New York, gets very much agitated about it, as follows: "Lupo's voluptuous limbs revolve like twin pillars of marble; Sohlke's splendid, warm, white bosoms rock like ocean waves; Blasina's long, lithe, snowy arms glance in the hot light as if half-forgotten in an amorous dream, while the delicate frothy lace flutters far above the creamy knees of the wanton Diana as if supremely happy in its proximity to such loveliness. Blasina floats through the air like a drifting water lily; Lupo leaps like a red-hot rose in a tempest; Sohlke trips along the foot-lights with the grace of a startled white doe; Ricci skims the air like a dove on the wing, while Diana turns herself into a perfect kaleidoscope of female beauty, and refreshes the trembling hearts of the audience even as a white revolving light inspires a wreck-fearing sailor at sea."

—We are not accustomed to look to the Memphis *Avalanche* for moral instruction, yet the following is not unnecessary. We recollect seeing in a Milwaukee paper that, on the return of a Sunday School of that city from an excursion on Lake Michigan, resolutions were adopted thanking the "clerk of the weather" for having given them a pleasant day. We now quote the *Avalanche*: "It has become quite fashionable of late for the newspapers to speak of the 'clerk of the weather.' We make no pretentions to self righteousness—we despise sanctimonious hypocrisy—but to call Him who directs the storm, the whirlwind, the the thunder and the lightning; who sends the rain, the hail, the sleet, the snow, the harvest, the seasons, 'the clerk of the weather,' is a species of wickedness amounting to impiousness."

—On Saturday last, Isaac Hall, a baker, living at No. 763 Third avenue, was buried. On the Thursday preceding he was driving a horse and buggy through Central Park, accompanied by a lady friend, when the horse took fright and ran away, Mr. Hall being unable to control him. On turning the east end of the wall he was thrown out and instantly killed, the lady escaping unhurt. On Thursday, two weeks previous, he was driving in the same buggy, when near Jones' Wood, the horse ran away, throwing out his wife, who was instantly killed, himself and his little daughter escaping unhurt. His wife was also buried on Saturday.—*New York Herald, 25th ult.*

A GREAT FAMILY CONVENIENCE.
A new and novel arrangement for having
HOT WATER BOILERS
attached to the back end of common cook stoves, so that the waste heat which goes up the stove-pipe heats all the water needed in an ordinary sized family, by passing the blaze directly through the boiler, which sits over the pipe hole of the stove. This new arrangement can be put on to any No. 7, or 8 common Cooking Stove, of any manufacture. Any person having a TRIUMPH, VICTORY, BLACK OAK, BEAUTY or UNION STOVE, or almost any other Cook Stove made in the Union, can have Boilers attached to their Stoves, including the Attachment, the Boiler and Lids, and Bibb Cock, for the moderate cost of SEVEN DOLLARS, by applying to

HEALING WITHOUT DRUGS.

The true curative plan or natural healing art is based entirely upon physiological principles—upon the ACTIVITY OF FUNCTIONS in appropriating and using the LIFE SUSTAINERS, and their nutrient value being assimilated in a manner that is potent in the BANISHMENT OF DISEASE from the system. But before we can heal through the inherent vital properties of the tissues, we bring the RATIONAL MATERIA MEDICA to bear, in DRAWING OUT THE DISEASE MEDICINES, and morbid materials through the activity of the depurating channels, sanatory provisions and safety valves, with which the system is bountifully supplied. But when these are either obstructed or not understood, the penalty is the same; therefore the cup of quaking lest we die before we have gained more money than we need. It is our highest policy to learn first the laws of righteousness in the bodily tabernacle, in order that we may live to inherit our natural wealth of happiness. By our normal tonics, alteratives, stimulants, sedatives, &c., we get the FRIENDLY changes of vital action, without the error and wrong done by drugs. By a correct dealing with causes in the province of disease, we eradicate the whole catalogue of parasitic, among which are tap worm, erratic worm, &c.; also, tumors, cancers, ulcers, abscesses, dropsy, insanity, diseases of the organs or maladies, ossium and fragilitas ossium, deafness, liver complaint, dyspepsia, gout, rheumatism, neuralgia, and in short every disease that flesh is heir to, provided our remedial plan is strictly adhered to. We do not expect to please all. But those who have been the victims of the empyrical and ingenious lingo of similia similibus curantur, and contraria contrariis curantur practice; and now wish PHYSICAL REDEMPTION. In its broadest sense, can try the Vis-Conservatrix Naturae Method, by giving us a call, at No. 30 CENTRE AVENUE, Pittsburgh.

SECURE PROFITABLE INVESTMENT.
THE
Central Pacific Railroad
First Mortgage Thirty-Year Six Per Cent Coupon Bonds,
Principal and Interest Payable in Gold Coin,

Represent the preferred claim upon one of the most important lines of communication in the world, as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the
MAIN TRUNK LINE ACROSS THE CONTINENT.

The road is now nearly completed from Sacramento to the richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on this continent. The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expenses for the quarter ending October 31, were as follows, IN GOLD:

GROSS EARNINGS.	OPERATING EXPENSES.	NET EARNINGS.
$593,847.92	$102,088.61	$491,759.31

This result, however, would have been far greater but for the inability of wagon teams to forward the freights and passengers from the temporary terminus in the mountains.

The United States Government and the State and cities of California have so aided and fostered the Great Enterprise, that the Company will assume very light annual interest obligations, and will have the following ample resources at command for the construction:

Donations in Lands, Bonds, Concessions, etc., (without lien.)	$12,800,000
Capital Stock, Net Earnings, etc., (no lien.)	11,000,000
Loans, (subordinate lien.)	3,000,000
U. S. Subsidy Bonds, 726 miles, (subordinate lien.)	25 517,000
First Mortgage Bonds	25 517,000
Resources, first 726 miles	$77 134,000

The FIRST MORTGAGE BONDS are in sums of $1,000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 95 per cent. and accrued interest from July 1st, in currency, at which rate they yield nearly

Nine per cent. upon the Investment.

These Bonds, authorized by the Pacific Railroad Acts of Congress are issued only as the work progresses, and to the same extent only as the Bonds granted by the Government, and are the prior lien upon the whole valuable property furnished by the above Resources. They possess special assurances and advantages over other Corporate Securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, soundness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES Into Central Pacific FIRST MORTGAGE BONDS Now Realize for the Holders from Twelve to Eighteen per Cent. Advantage,

WITH THE SAME RATE OF INTEREST.

Bonds can be obtained through the subscribers directly, or through responsible Banking agencies. Descriptive Pamphlets, Maps and information can be had at the office of the C. P. R. R. Co., No. 54 William Street, New York, and of

525 MILES
OF THE
UNION PACIFIC RAILROAD,
Running West from Omaha,
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of $16,000 to $48,000 per mile, for which it takes a SECOND LIEN as security and receives payment to large if not to the full extent of its claims in services. These bonds are issued as each twenty mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class road, thoroughly supplied with depots, repair shops, stations, and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government, and no more. Hon. E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been paid in upon the work already done.

Earnings of the Company.

At present the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a GOVERNMENT WORK, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

First Mortgage Bonds

Are offered for the present at NINETY CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than United States Stocks. They pay

Six Per Cent in Gold,

Or OVER NINE PER CENT. upon the investment. Subscriptions will be received in Pittsburgh by

HART, CAUGHEY & CO., Third and Wood streets.
S. McCLEAN & CO., 75 Fourth street.

And in New York at the Company's Office, No. 20 Nassau street, and by CONTINENTAL NATIONAL BANK, No. 7 Nassau street.

JOHN J. CISCO & SON, Bankers, No. 33 Wall street,
and by the Company's advertised Agents throughout the United States. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express.

A new PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at the Company's Offices, or of its advertised agents, or will be sent free on application.

BRICK MANUFACTURING CO.
This Machine takes the clay direct from the bank, (without the preparation, by soaking necessary for "soft mud" machines,) and tempers it thoroughly, pressing in steel moulds, brick stiff enough to be packed up eight high in the yard as made. For cutting with the trowel, bearing hard usage, and making a strong, true wall, there are no better brick known. The cost of making them by this machine is from 90 cents to $1.10 per 1,000, according to the rates of wages. This we guarantee. The machine is built entirely of iron and steel; and in the best style for strength and permanent use in working clay. Apply for circulars, giving full information, at the office,

A thief in Baltimore went into the banking house of McKim Brothers, and deliberately reached behind the wire screen, and appropriated a roll of notes worth $8,000. He was captured after a severe struggle in the office, during which the money was dropped, and another man went off with it. The other man is still off, as is the money.

A lover in Louisville, recently becoming jealous of his "lady faire," cut her up into small pieces. This is no new idea, for Juliet, speaking of Romeo, says:

> "Take him and cut him up into little stars,
> And he will make the face of heaven so fine
> That all the world will be in love with night,
> And pay no worship to the garish sun."

If the Louisville murderer ever read Romeo and Juliet, a great responsibility rests on the shoulders of the "divine William."

Mrs. Stanton and Susan B. Anthony have recently lectured in St. Louis and Louisville on woman suffrage, and have had large audiences and respectful hearing. Woman's right to hold property after marriage was first recognized in the Southern States, and if she ever votes it will very likely be in those States before any other place. Southern women are generally politicians, and their influence in Southern politics are openly acknowledged.

Our western exchanges give a sensation column to describing the marriage of an Illinois editor and a wealthy beautiful bride. The groom went on the editorial excursion to the Rocky Mountains, and when he returned found his house deserted, and a letter from his wife telling him she had fled with one she loved—a Captain in the regular army. Instead of letting her go without any further disturbance, as a sensible man should, he followed her to Pittsburgh, thence to Cleveland, broke open the door of the room in which the guilty pair had taken lodging, confronted them with pistol in hand, and was shot by the Captain, who escaped with the bride.

We firmly believe that American citizens go raving mad, undeniably daft at certain periods. Prominent men, first citizens, are actually thronging to Weston's hotel, in Chicago, and showing their cards and attentions on him. Fifty policemen (more than the whole number in Pittsburgh) were sent to escort him into the city and protect him from the adulations and ovations of the crowd of fellow-citizens. Is it any wonder that traveling foreign snobs should laugh at and ridicule this tendency of the American citizen to go into a state of insane servility and curiosity on a few hours' notice? No amount of ridicule, however, seems to avail anything towards the abatement of the nuisance, and so we suppose that until the world's end, any man that can, in any way, achieve notoriety, will be set up for the idol of the hour, and the shrine at which the pent up feelings of his fellow-beings will be sacrificed.

The Wilmington *Commercial* gives an account of the last semi-annual whipping in that democratic city. Four negroes, one mulatto, two American white men, one Irishman, and one German, were successively brought out of jail, stripped to the waist, their arms and feet pinioned to a whipping post, and then whipped by the Sheriff with a cat-o-nine—an instrument which gives nine blows at every stroke. The editor says of the German: "He seemed more humiliated than any of the others, and, as soon as taken to the post, hung down his head, and commenced weeping bitterly. He made no outcry, but showed by his facial contortions and the shrinking of his body the physical pain he suffered. He received twenty lashes, which showed very plainly on the clear white skin." Delaware, which maintains this barbarious system, is one of our democratic States, and when we admit her representatives to Congress we need have no more fear of contamination from members representing a constituency of any color.

FOR SALE—REAL ESTATE.

FOR SALE—The best Farm in Fairfield township, Westmoreland county, Pa., containing about 260 acres, situated six miles south of the Pennsylvania Railroad, at Bolivar Station. The improvements are a large hued log house, with nine rooms, a good cellar; a frame bank barn, 40x70, with the best of stabling. Two apple and one peach orchard. The whole farm is under a high state of cultivation; the fencing is all No. 1; the soil is good, and is well watered; about 200 acres cleared, the remainder in good white oak timber. This property is offered at the low price of fifty dollars per acre. Possession immediately.

Also, a Farm of 312 acres in Penn township, Westmoreland county, 220 acres cleared and under cultivation, 92 acres of first-rate white oak and other timber, 2 dwelling houses, 1 of them 2 stories, the other 1 story, with a tenant house, with a first-rate Steam Sawmill in good running order; young orchard of grafted fruit. The land is rolling; every acre is tillable, with limestone soil and subsoil, with never failing springs; within one hundred rods of the Penna. Central Railroad; 28 miles east of Pittsburgh, and three miles west of Greensburg. This farm is pleasantly and eligibly situated in a good neighborhood; every acre is underlaid with coal. The title is good.

Also, 60 acres in Derry township, Westmoreland county, Pa., within four miles of Blairsville, and three miles of two stations on the Pa. R. R. The improvements are, a new frame dwelling house and outbuilding; a new steam saw and grist mill, with two run of burrs, two bolting cloths, and all the necessary fixtures, and a young orchard of choice fruit trees. The whole tract is underlaid with a six foot vein of coal, now opened, and an abundance of limestone. This property will be sold very low, if applied for soon.

Also, the best Hotel in the Borough of Indiana, the county seat of Indiana county, Pa. This is a large four story brick building, of 54 rooms and a basement under the whole house, and is situated on the corner of Philadelphia and Clymer streets, on a lot 60 by 200 feet; and on said premises is a frame house 24 by 60 feet, used as a wood house in the lower story and bill room above; also, a frame stable 50 by 60 feet; also, a half lot, 50 by 100 feet, on which is a large frame stable, used as a livery stable. The whole property has recently been painted and repaired throughout, and is one of the best locations for a public house in Western Pa., and will be sold very cheap if applied for soon.

Also, a Farm of 142 acres, at half price, to a cash customer. This farm is in Derry township, Westmoreland county, Pa., within two miles of Latrobe, a station on the Penna. R. R.; 120 acres of cleared land, under good fencing, the residue 22 acres in good white oak, black oak, hickory, black walnut and locust timber. This is a first rate farm, in a high state of cultivation, with good and comfortable buildings, a frame house of 8 rooms; large barn, 50 by 85 feet, and has coal and limestone under the whole tract, and is convenient to churches, schools, mills, &c.

5,000 ACRES OF VALUABLE

Timber, Coal and Mineral Lands

FOR SALE.

Situate on the line of the Pennsylvania Central Railroad, in Cambria county, within a short distance of Wilmore Station; has a frontage on the Railroad of nearly three miles. Several veins of the best quality of pure rich bituminous coal underlie the whole tract. The veins rise gently from the Railroad towards the rear of the property, thus making it favorable for mining and easily drained. There is a large market for coke and it will cost but little to manufacture it. The property contains, besides the coal, several kinds of stratified IRON ORE; also LIMESTONE. Fire and Potter's clays, sand stone for building and for glass manufacturers. Not far beneath the bed rock of the coal formation lies a valuable bed of Iron Ore, which has been opened and worked westward. A great portion of the tract is covered with valuable timber of large growth, such as Ash, Cherry, Linn, Poplar, Oak, &c. The facilities for transporting this timber, when manufactured into lumber, either east or west, are unsurpassed. There is a water power Saw Mill on the extreme part of the tract, and at the Railroad Station there is an excellent steam Saw Mill, recently erected and now cutting 10,000 to 12,000 feet per day. The demand for lumber at this point is constant, and a much larger supply could be readily sold at the mill, while there is ample room and timber on this property for several such mills.

The improvements on the property are worth from $40,000 to $50,000. There are two large mansions built for former proprietors in elegant style; a large store house, shops, &c. and about ten tenement houses for workmen, with stables, &c.

These lands are also well adapted to farming purposes, and under proper agricultural treatment would yield good crops, while they are specially adapted to grazing purposes.

ORDINANCES.

AN ORDINANCE for the Grading, Paving and Setting with Curb of Church street, from its intersection with Dawson street, southwardly, to the Borough line of the Borough of Lawrenceville.

SECTION 1. *Be it ordained and enacted by the Burgess and Town Council of the Borough of Lawrenceville, and it is hereby enacted by authority of the same,* That the Street Committee, in connection with the Borough Regulator, be and they are hereby authorized and empowered to invite and receive proposals for the grading, paving and setting with curb that portion of Church street extending from the intersection of said street with Dawson street, southwardly to the borough line, and to contract therefor with the lowest and best bidder, at their discretion.

SECTION 2. That the expense of grading said street shall be paid out of the Borough treasury as provided for by existing ordinances, and for the purpose of defraying the cost and expense of paving and curbing said street, there be and there is hereby levied a special tax, to be equally assessed on the several lots bounding and abutting on said street, in proportion to the feet front thereon, and comprised and bounding and abutting as aforesaid.

SECTION 3. That as soon as the cost and expense of paving and curbing said street is fully ascertained by the Borough Regulator, it shall be his duty to assess and apportion the same among the several lots owning property on said street, according to the rule herein before indicated, and thereupon to give notice thereof to the owner or owners of said lot or lots respectively, or to the agents or guardians of such owner, and make return of such assessment to the Treasurer of said Borough.

SECTION 4. That it shall be the duty of the Treasurer of said Borough, on the return so made, to cause notice to be given to the parties on whom assessments have been made as aforesaid, that unless the amounts of such assessments are paid to him in thirty days from the date of such notice, he will proceed to collect the same in the manner provided by law.

DOLLAR

SAVINGS BANK,

No. 65 Fourth Street,

CHARTERED IN 1855.

ASSETS............$2,232,906 54.

Open daily from 9 to 2 o'clock, also on Wednesday and Saturday evenings, from May 1st to November 1st, from 7 to 9 o'clock, and from November 1st to May 1st, from 6 to 8 o'clock.

Deposits received of all sums of not less than One Dollar, and a dividend of the profits declared twice a year, in June and December. Interest has been declared semi-annually in June and December since the Bank was organized, at the rate of six per cent. a year.

Interest, if not drawn out, is placed to the credit of the depositor as principal, and bears the same interest from the first days of June and December, compounding twice a year without troubling the depositor to call, or even to present his pass book. At this rate money will double in less than twelve years.

Books containing the Charter, By-Laws, Rules and Regulations, furnished gratis, on application at the office.

The Pittsburgh Gazette

CITY AND SUBURBAN.

PITTSBURGH AND CONNELLSVILLE RAILROAD.

Annual Meeting of the Stockholders—Report of the President—Election of Officers.

The stockholders of the Pittsburgh and Connellsville Railroad Company held their annual meeting at the office of the Company, in their building on Grant street, yesterday morning. The meeting was organized at half past ten o'clock, by calling Judge P. McCormick, of Fayette county to the chair, and appointing John F. Page, F. P. Case and Wm. Anderson, Secretaries.

The fifteenth annual report of the President, W. O. Hughart, and Board of Directors was then read by Mr. Page. The following is the report:

ANNUAL REPORT.

The charter of the Comany requires the President and Directors to present to the stockholders at each annual meeting a complete statement of the affairs and proceedings of the company during the year which shall have just expired. In obedience to this requirement we, in this, our fifteenth report, offer a faithful and minute history of our labors.

GROSS EARNINGS.

The gross earnings for the year are:

From Passengers	$174 630 32
From Freight	312,931 53
From Mails	3,650 00
From Miscellaneous Sources	6,969 55
	$498,180 90

EXPENSES OF OPERATION.

Conducting Transportation	$71,349 91
Repairs of Motive Power	99,240 42
Maintenance of Cars	28,975 23
Maintenance of Road	17,939 65
Total Expenses	$325,208 25
Showing net earnings	172,972 65

Equaling 34 73-100 per cent. which is 1 24-100 per cent. better than the previous year.

The freight transported all distances, was 374,965 tons, against 315,734 tons the previous year. The amount received from freight has been $312,931 53, against $285,843 60, an increase of $27,388, or nearly 10 per cent. The shipment of coal and coke for the previous year amounted to 256,643 tons, the present year to 301,652 tons; an increase of 46,000 tons, or 17½ per cent. Stone, brick and fire clay has increased 43 per cent., principally due to glass sand which has been included under this heading.

The items of small carrying are unchanged, and that styled miscellaneous is, as heretofore, for old material sold and work done in the company's shops for other parties.

Of the gross revenre, the main division of the road has earned $339,114 56, an increase of $27,955 67, or nearly nine per cent. The Turtle Creek division has returned $130,670 82, an increase of $747 05; and the Fayette county road $26,395 52, an increase of $2,348 01, or about one per cent.

The total number of passengers carried all distances was 411,110, against 380,044 the previous year—an increase of over eight per cent. The revenue therefrom was $174,630 32, an increase of $2,187 47, and every evidence of a future, steady and healthy improvement.

The total gross earnings have been $498,180 90, an increase of $31,057, or 6⅔ per cent.

The earnings per mile, run by trains, has been 1 46-100, which is a slight improvement upon last year.

WORKING EXPENSES.

The cost of conducting transportation has been $71,349 91, or 23 94-100 per mile run by trains, which is 3 67-100 per mile more than last year.

The cost of maintenance of road bed, bridges and trestles, has been $107,653 64, against $116,874, last. This is equal to $1,493 80 per mile for seventy-two miles. The present year it cost $1,623 25.

The cost of these repairs per mile run by trains is thirty-one cents, being three cents less than last year.

The repairs of trestle has become burdensome, and we have been steadily at work filling them with solid embankments. Progress in this direction is reported by the Chief Engineer under the appropriate head.

The bridge crossing the Youghiogheny river, upon the Fayette county road, has been thoroughly repaired by the introduction of entirely new chords. When the work of covering and painting them is finished, we may expect many years duration, with but little need for repairs. The other bridges upon this branch will be so strengthened as to permit the passage of the heaviest of your engines, the business having so much increased as to demand this as a measure of economy.

Upon the main line the great ice gorge of last February, the greatest ever known, and very far exceeding that of the previous year, inflicted heavy damages, entailing necessity for large expenditures for repairs, besides serious diminution in our revenue.

The bridge at Jacob's creek and Sewickley were both carried away. The latter of iron and of great weight, was at first, although not thrown from the abutments, so displaced as to be unfit to carry the trains, and after it had been replaced by many days of incessant labor in most inclement weather, so as to allow one train to pass over it, the ice rising still higher than before, lifted it from a height upwards of twenty feet into the bed of the creek. Our officers and men, weary and worn with severe and continuous labor, were almost disheartened, but returned to the work, and as soon as the flow of water and ice permitted, erected a trestle bridge, which has since been replaced by the original iron trusses, so elevated as to give us six feet more of water way and prevent the possibility of a recurrence of a similar disaster. The bridge at Jacob's creek, which was of wood trussed by iron bars, was so injured as to make it necessary to rebuild it, and in doing which it has also been elevated out of the reach of future ice floods.

For twenty-one days none but the single freight train mentioned passed over this portion of the road, and the consequent diminution of revenue tells severely upon our gross, as do the attendant expenses upon our net revenue. For a more detailed account of these casualties the report of the Chief Engineer is referred to.

We report your track and road bed in *good order*. We nave steadily pursued the work of replacing the iron and ties, as the large expenditures under this head will show.

The maintenance of the motive power, including the repairs of engines, fuel, oil, &c., has cost $99,240 42 against $93,825 last year, or, 29 20-100 per mile run, being 35-100 more than last year. This includes thorough repairs to Nos. 2, 3, 5, 6, 8 and 12, and damages occasioned by the serious accident to engine No. 6, noticed hereafter. It is less indeed, than the increase of mileage and tonnage. But this will continue to be excessive until you increase the number of your locomotives, which it has not been deemed politic to do on account of the uncertainty as to continuance of demand.

Your interests now imperatively demand the immediate purchase of two more engines for general service, besides one for shifting in the yard at Pittsburgh. This necessity was so urgent that the purchase of one of the engines needed has been already arranged for with the Pittsburgh Locomotive Works, who fortunately had one on hand for sale.

The running repair of locomotives has now to be done chiefly at night, and the excessive cost of this is so great a burden that, as your master of machinery is prepared to demonstrate, the saving by avoiding this night work will not be long in balancing the price of the new engines now called for.

EXPLOSION OF BOILER.

Upon the fifth day of August last, engine No. 6, lying at Layton station, exploded its boiler and caused the death of Samuel Page, fireman, Patrick Kelly, conductor, and Andrew Oliver, brakeman. The engine had just come from the shop, after thorough repairs, and was upon the first trip. The back head of the boiler gave way, but no serious damage was done to the machinery. The sheet which yielded was of Sligo iron, and a much shorter time in use than the remainder of the boiler. Experts testified before the Coroner's jury that the material was most remarkable for every appearance of excellence. The fireman and conductor were valued servants of the Company, and their loss must be deeply deplored. The brakeman was but newly employed.

MAINTENANCE OF CARS.

The maintenance of cars has cost $28,975 23, 8 59-100 cents per mile run by trains—3 48-100 more than last year. This includes the entire rebuilding of two passenger cars and many of our freight cars. This work should be continued until all are completed. The only additions, for some years, to the stock of passenger cars has been those bought from the Fayette County Road, and from the Susquehanna Company, and the iron car bought from Messrs. Nimick & Hanna. Some additions to the number of this class of cars, as well as the rebuilding of part of those in use, should not be longer delayed, or the most profitable part of the business of the road will seriously suffer.

The cost thus far of the maintenance and working of the road has been $325,208 25, against $310,230 79 last year, an increase of $14,974 46. This is 95 70-100 per mile run by trains, against 95 73-100 last year. The ratio of current expenses to gross receipts has been 65 27-100, against 66 41-100 last year. This ratio has been much decreased since April, and will continue to decrease, as many of the items cannot re-appear for years to come. We venture to ask comparison with most other roads, believing that the result will demonstrate the careful economy of our administration.

WORK PERFORMED BY MOTIVE POWER.

The number of miles run by trains has been 339,804, carrying 411,116 passengers an average distance of 11 6-100 miles, equivalent to 66,335 over the whole road, or 4,776,155 one mile. Two hundred and fifty-eight thousand four hundred and eighteen were carried eastward, and 152,698 westward.

The freight transportation was 374,965 tons, 35,182 passing eastward, and 339,783 westward. The disparity is indeed great, and is a necessary feature of the road as it now exists, as a local road, without through eastward transportation—a state of things only to be altered by its completion to its intended eastern terminus.

The average distance was 26 9-100 miles, which is equal to 140,005 tons over the whole road, or 10,080,344 tons one mile.

The work of the previous year was 324,068 miles run by locomotives, carrying 380,044 passengers, an average distance of 12 6-100 miles—equivalent to 63,709 over the whole road, or 4,587,106 one mile. The freight carried the previous year was 315,734 tons of 2,000 pounds.

We have now to report another year of entire freedom from accident, not the slightest harm having befallen any passenger transported over our road.

FINANCES.

The floating debt at the close of the last fiscal year, after making proper deductions for assets entirely and immediately available, was $59,305.83. Making the similar deduction the floating debt is now reduced to $36,995.79. This does not include the interest due upon the mortgage to the city of Baltimore.

We give our customary brief approximating statement of disposition of her revenue:

		$172,972 65

The item of expenditures of locomotive engines is balanced in full upon No. 13, all of No. 14, and a part of No. 15. For coal and coke yards, is the amounts expended to furnish and improve the company's property in Pittsburgh for the use of parties retailing. For depot grounds and buildings and real estate is principally for work at the Pittsburgh station, and includes payments upon property purchased at Frankstown. Interest on real estate bonds is for the bonds upon the Pittsburgh Depot property. Of them, $40,000 upon what is known as the Fetterman purchases will mature in January, 1869. Arrangements are being made to postpone the payment until the company is prepared to meet the amount.

The amount expended for graduation has been in filling in various trestles upon the Turtle Creek Division, in grading down the cliff in the rear of Everson & Preston's mill; also $6,000 for balance of work done at Sand Patch Tunnel, at close of last fiscal year, and for material put into various trestle works, as will appear in detail in the Chief Engineer's report. The masonry work was done at Two Mile Run, Mount's Creek and Laurel Run.

The amount for "coupons" is larger; it includes, and we have now paid up, all arrearages except a portion of the tax to the United States Government. These arrearages accrued during the progress of the work on the Turtle Creek division. The item of profit and loss is for an old claim due the Pennsylvania railroad company—originally $14,000, but reduced by compromise to a little over one-half. The other items do not require comment.

EQUIPMENT.

We have built one new locomotive, which appears upon the list as No. 7, taking the place of an engine of that number which was completely worn out. We have also purchased another, No. 15, from Messrs. Bartlett, Robbins & Co., of Baltimore. We have built one new passenger car and purchased one from Messrs. Jackson & Sharp, of Wilmington, and now have but just enough for daily need. There has also been built one new baggage car, and some tools have also been added to the machine shop.

We would again advert to the policy and necessity of the expenditures upon account of construction and equipment. Every dollar is added to and remains in the road,—not as dead capital, but additions to the living and working energies, by which we are to be enabled to meet our obligations, and this in the very near future. Your board, in pursuing the policy of their predecessors, have not acted without most careful and deliberate examination.

The debt of the city of Baltimore was rapidly increasing by the annual addition of $60,000 of unpaid interest, which amount was for years more than your whole gross receipts. Business was offering, and there seemed to be certainty of a large and constant increase. It was then determined, in the absence of capital, that the net earnings should be applied to the purchase of necessary machinery and the restoration of the road to good condition, *as the necessary and only means by which money could be earned* for the payment of this interest. The policy has been justified by the result, and the forbearance of our creditors will, it is believed, ere long be rewarded by a proper adjustment of their claims.

LITIGATION.

The suit of the Pennsylvania Railroad, in the name of the State, by writ of *quo warranto*, has not yet been tried, though we have been persistently urging we should be heard. The fact that *all* the delay comes from our opponent is most significant. The case in the Supreme Court of the United States is also still unsettled. We are eagerly pressing for this trial and they are as anxiously avoiding it. These assertions may easily be verified by an examination of the records.

AN APPEAL TO THE LEGISLATURE.

We would suggest another appeal to the Legislature. We believe that the indications are better than ever before. The prevailing corruption has created alarm, and an effort has been made throughout the State to elect purer and better men, and we may confidently expect a restoration of our franchises. Your Board have been energetically engaged in preparing our case for proper presentation before the Legislature.

RELATIONS WITH THE BALTIMORE AND OHIO RAILROAD.

There has been much said here by our enemies in regard to the indisposition of the Baltimore and Ohio Railroad to aid in completing the work. The managers of that line are well known for their ability, tact and energy, and if we apply the same rules to them which govern men possessing those qualities elsewhere, it will forever set at rest all such fears and will serve to re-assure those who have regretted the passing of the contract of the Company into their hands. Your road is the only way by which Baltimore can reach the fertile and wealthy counties of Southwestern Pennsylvania. It is her only route to Pittsburgh. Is is her best possible avenue to the lakes and the Northwest. It will afford almost immediately a fair return for the money required to build it, and it will throw a vast and constantly increasing traffic upon the road between Cumberland and Baltimore. It is but just to believe that these considerations are as apparent to others as to ourselves, and we confidently assert that the freight which would thus be gathered from our river, from the railway connections of the city—from the city itself, and from the counties traversed by our road, will be equal to, if not more than the entire sum of the present business of the Baltimore and Ohio road, west of Cumberland. The managers of no road could be indifferent to such a prize, and all our difficulties result from the sure knowledge of this possessed by those who see and dread in us a most potent rival.

Self-interest, if nothing else, will make the Baltimore and Ohio road our most earnest and energetic friend when the Legislative obstacles are removed; and if we, as citizens of Pittsburgh, do our part in seconding their efforts, and those of the citizens of Baltimore, there will be no delay in the accomplishment of what we so ardently desire. Since 1864 it has been impossible to do more than has been done, and all our efforts have been well and ably seconded by the present management of that company.

B. H. Latrobe, Esq., Chief Engineer, then read his report to the President of the operations in his department during the year.

G. L. B. Fetterman, Esq., Chairman of the Committee on Accounts, submitted a report to the effect that the books of the company had been carefully examined, and found correct. The Committee also complimented Mr. J. P. Page, Jr., the Secretary and Treasurer of the company, for the careful and efficient manner in which he had performed the duties entrusted to him.

On motion of Mr. McCabe, the several reports were received and adopted.

President Hughart submitted an act of the Legislature, approved April, 1866, empowering the company to change the location of the road near Port Perry, which, upon motion, was accepted by the stockholders.

No other business being brought before the meeting, it was, on motion,

Resolved, That we now proceed to the election of a Board of Directors for the ensuing year, and that the polls close at twelve o'clock M.

On motion, James M. Bailey was appointed judge, and Chas. H. Riggs and E. W. McCullough as tellers.

No nominations having as yet been received from His Honor, the Mayor of Baltimore, in accordance with terms and conditions of the ordinance and agreement, it was

Resolved, That we now proceed to the election of a full Board for the current year, authorizing the said Board to make proper arrangements to comply with our agreement with the city in this behalf.

The stockholders then present, in person or by proxy, proceeded to deposit their votes, and the ballots having been counted it appeared that Wm. Ogden Hughart, G. L. B. Fetterman, John Fleming, Wm. Phillips, Wm. Baldwin, Jos. Pennock, Cyrus Meyers, Benj. Deford, Johns Hopkins, Hill Burgwin, Ormsby Phillips and Wm. S. Bissell, were elected the Board of Directors for the ensuing year.

On motion adjourned.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, December 2, 1867.

Gold opened at 137⅜, declined to 136¾, advanced to 137⅛, and closed dull and drooping at 136¾. The scarcity of money and the large amount of gold held by the banks in New York, together with the advance of American securities in Europe, is likely to depress the market still further. With the decline in gold the value of Five Twenties is affected in a similar way, and Five Twenties of 1862 and 1881's declined ¼ per cent. Consols are also less firm, and Ten Forties are ⅜ per cent. lower to-day than on Saturday.

The market for bonds is very dull and is in sympathy with the decline of gold, and should a policy of contraction be pursued, then a large amount of bonds must come on the market, and a heavy decline is inevitable. The decline in English Consols from 95 to 93⅜ shows what little confidence capitalists have in this well regulated and established Government, whilst nobody can foresee the moment when large amounts of American securities are returned and specie demand; foreign holders may believe in the ultimate payment in coin of all our national securities, but this does not preclude the ability of foreigners to hold American securities during a period of war or greater activity of business in Europe.

The stock market is very firm on all speculative stocks, this shows how little confidence exists in business circles, and money goes to Wall street to earn interest. It would be madness for any one not thoroughly posted on stock jobbing to venture any many at this moment in any railroad security, either bond or stock, the road of which is not earning the ful interest for all outstanding obligations. Mining shares are dull and are doomed to inactivity until spring.

Closing New York quotations, received by Ph. R. Mertz, were as follows:

—Mr. Morrill's finance bill is regarded as representing the views of the Senate in regard to financial legislation. Its chief provision is that no addition be made to the National bank note circulation; that on and after the 4th of July, 1869, the greenback currency be redeemed at par in gold at the treasury, and that the national bank notes be redeemed in gold or greenbacks by the issuing banks. It does not provide for any change in the existing contraction law either by re-enacting it or by suspending its operation.

But it compels the national banks to store up all the coin they receive for interest on their bonds after the first of July, 1869. No arrangement is made by which the Treasury shall accumulate an amount of coin sufficient for resumption. But up to the first of January, 1869, the government gold in the Treasury is to be sold whenever it exceeds seventy-five millions. This bill is not regarded as likely to pass the House.

—It would seem that the prices of breadstuffs are now high enough to encourage the Western dealers to send forward their product freely, to be realized upon at the eastern markets. Western grain merchants, however, appear to think otherwise. Dealers here differ slightly from those of the west as to the prospective value of grain; and the Western operators consequently hold back their stocks, imagining that ultimately they will be in a position to extort higher prices. In the meantime the close of navigation is near at hand, limiting the means of transportation, and consequently limiting our prospective supplies. It is not improbable, therefore, that during the winter the west may be able to command high prices for the limited supplies sent over the roads; but what will be the ultimate value of the immense reserve held back! The late high prices of grain in all parts of the world will naturally induce, next year, an enlarged growth of cereals; and at the opening of navigation next spring the west will find itself with immense stocks pressing for sale, and but few buyers, in anticipation of an abundant harvest. The pressure of these supplies upon the market will naturally tend to precipitate a heavy fall in values; and thus, after carrying the grain six months, much lower prices will be obtained than could be realized now. This sort of folly the west repeats every year, but without learning wisdom from its attendant losses.—*Phila. Press.*

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, December 2, 1867.

CATTLE.

The market was rather slow and very irregular to-day. Good retailing Cattle were in demand, and sold readily at full prices, while common and inferior grades, of which the great proportion of the stock on sale consisted, were exceedingly dull, and holders of this particular class of cattle, as a general thing, had to accept whatever buyers saw proper to give them. There were no eastern buyers in attendance, and, as a consequence, the demand was restricted almost wholly to supplying the immediate wants of the retail trade. The butchers complain of hard markets, owing to the large amount of dressed meat that is being brought in by farmers, and besides the season for poultry is near at hand. Prime fat cattle, such as our best butchers are in the habit of buying, sold at from 7 to 7½; medium butchers cattle may be quoted at 6 to 6½, and common do at 5½. Stock cattle sold all the way from 3 to 5, as to quality. The following is a pretty full report of all the leading sales.

Adam Snyder sold 28 head of very poor Butler county steers and heifers at 3 to 4½. L. Rothchilds retailed 28 head of fair to good cattle at 6½ to 6¾.

Jas. McAllister sold 20 head, on commission, at 5½ to 6½, and Rothchilds & Byers report 20 head, on commission, at 5 to 6½.

M. Verner reports having sold 30 head Washington county cattle at 5 to 7½. Haas & Crouse report 60 at 5 to 7. Jacob Shamberg 32 Washington county stock at 5 to 6½.

L. Shamberg reports having sold 11 head, on commission, at 3 to 6½, and 26 on his own account at 4 to 5½. C. Hartman reports 49 head Green and Washington county cattle at 3 to 7.

Marks & Trauman report having sold 60 head from Champagne Co. (Ohio) at 5¼ to 7¼, and 40 from Chicago at 5¼ to 6¾.

Hazlewood & Blackstock retailed 39 head of Belmont county, Ohio, stock, for Shomaker, at 6 to 7, and 19 head for another party at 4 to 6½.

Carr sold 15 head for W. Reis (of New Castle) at 5 to 6, and 13 Washington county cattle for Robinson at 5 to 6½.

Hedges & Taylor sold 17 head for Miller at 4½ to 6½, 12 for Magruder at 4½ to 5½, and 2 very common cows at 2¾.

John Kerwin sold 21 head of good stockers to Myers & Needy at 5,10; 21 head to Hamilton at 4, and 7 to McCormick at 6 to 6½.

SHEEP AND LAMBS.

There was again a full supply of Sheep on sale this week, but as has been the case for several weeks past, the offerings were mainly of an inferior quality, and as a consequence, the market was a very dull one, and it is probable that there would be quite a number left over unsold. Prime fat Sheep, as in the case of cattle, were in good demand and sold readily at full prices, while the commoner grades were very dull; the best retailing Sheep sold at $3,50@4,00 per head, while common may be quoted at $2,50@3,00, and "scalawags" at $1,50@2,00. We quote the following sales:

Adam Eckert reports having sold 20 Sheep at $3,25@4 per head, and 64 head Lambs at $1 to $3,50.

J. & W. Young had 230 head on sale; sold about one-half at an average of $1,50 per head.

T. Bingham reports having sold 160 head at an average of $2 per head.

Henry Walls sold 70 head Sheep and Lambs at $2,80 for the former, and $2,00 per head for the latter.

Stakely & Hare report having 283 head on sale; their sales ranged from $1,50 to $4 per head.

Shaw sold 34 head to Bannon at $2,60, and 17 at $2—to same buyer.

HOGS.

The market for Hogs has been more active during the past day or two, in consequence of the weather being more favorable for killing, but notwithstanding the demand has improved and the sales considerably larger in the aggregate, prices, compared with last week, have undergone no quotable change; we continue to quote in a retail way at 6¾@7¼c, gross, for fair to prime heavy averages, and these may be regarded as the extremes of the market. We are glad to learn that the difficulty which has existed between the commission men and eastern shippers at the Central Yards for the past ten days has been adjusted satisfactorily, and business is moving off as pleasantly as ever. The commission men, it is understood, will, if they have not already, agree that hereafter all Hogs in their care shall not be overfed, and this was the main grievance made by the shippers.

Emerick, Schwartz & Co. wholesaled 150 head good packing hogs to Myers & Co. at 6¾, and retailed something like 20 head at 6 to 7¼.

E. Katz reports 140 head on sale; sold 40 at 6 to 7¼.

Quick sold 37 head to Emerick, Schwartz & Co. at 6¾.

Rothchilds & Byers report retailing about 50 head at 6¾ to 7¼.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, December 2, 1867.

There are no new characteristics in the general markets worthy of special notice. Business, generally, is very dull, the operations in all of the leading articles being on a very limited scale, but we are in hopes, that, as the prospects for an early resumption of navigation are again more promising, we will soon be able to report an improvement. A good coal boat rise would be of incalculable value to this place just now, as it would ease money matters and infuse new life and animation into trade generally.

GRAIN—Wheat is quiet and unchanged; we continue to quote at $2,45@2,50 for prime Red Winter, and $2,55@2,60 for do White. Barley is scarce and in demand, and prime Spring sells readily at $1,50. Oats firm but unchanged at 66@67c on track, and in store at 70@72c. Sale of 2 cars old Corn at $1,18; new is still quoted at $5@90c. Rye is quiet and nominal at $1,50.

FLOUR—There is no improvement to note in the demand, and while the market is dull, prices are unchanged. Spring Wheat brands range all the way from $10,00@10,50; Winter Wheat, $11,00@12, and $14@15 for fancy brands. Rye Flour is still quoted at $8,50@8,75 per bbl, and Buckwheat at $5@5,25 per cwt.

POTATOES—Dull, and in good supply but unchanged; we continue to quote at 95c@$1 per bushel for small lots in store. New Jersey Sweets, $6 per bbl.

APPLES—There is no improvement to note in the demand, and no change in prices; regular sales in store at $2,50@3,50 per bbl, for fair to prime.

DRIED FRUIT—Quiet and unchanged; small sales in store at 7½ to 8c for Apples, and 12@14c for Peaches.

BUTTER—Prime to choice Roll is in demand, and we can report regular sales at 38@40c. Common Butter is not wanted.

EGGS—There is a steady local demand, and with limited arrivals, the market may be quoted firm at 31@32c.

BEANS—There is no improvement to note in the demand; small sales at $3@3,25 per bush for prime White.

OIL—Sales of Lard Oil at $1,10 for No. 1, and 88c for No. 2.

CRANBERRIES—Cultivated, $12,50@13,50 per barrel.

HAY—Is selling from country wagons at $18@24 per ton.

HOMINY—Quoted at $7,50 per bbl.

ONIONS—Sales at $4,75@5 per bbl.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, December 2, 1867.

CRUDE—There was not a single transaction in Crude to-day, at least, we had none reported, and while the market is dull and weak, prices are nominally unchanged. Spot oil is dull and nominal at 7c, and while there is little or none offering there is but little to offer. The prospects for an early bulk rise are, as yet, a little doubtful, though, upon the whole, the indications may be regarded favorable, as the snow may go off with rain, and in that event, a rise is almost certain. The completion of the Allegheny Valley Railroads puts Pittsburgh in direct communication with the Oil Regions, and it is probable that within the next few days freight trains will be running regularly between here and Oil City.

REFINED—The Refined market was also very dull to-day, and like crude, there was not a single sale reported. This being the case it is difficult to give quotations; in the absence of sales, however, we quote nominally at 23@23½c, for spot oil, and 25@25½c for all December, buyer's option. Saturday being settlement, the last day of the month, it was expected that there would be quite a number of "lame ducks" in Philadelphia, but thus far we are glad to state, none have been reported. It must have gone pretty hard with some of the eastern operators to take oil at 34c to 37c, while in the open market it was selling at 23c to 23½c.

—Since the above was put in type, we have the following sales reported: 2000 bbls, 500 each, for June, July, August and September, at 28c.

OIL SHIPPED EAST BY A. V. R. R.

H. Koehler & Co., 50 bbls refined, to Waring, King & Co., Philadelphia.

Sugar less active and steady, at 12½@12¾c for Cuba; sales 1,000 boxes Havana on private terms. Molasses nominal. Hops steady and unchanged. Petroleum quiet, at 11½c for crude; 26c for refined in bond. Pork firmer and quiet; sales 150 bbls at $21,15@21,50 for mess, closing at $21,37 regular; $18@18 50 for prime, and $20 for prime mess; stock of old and new 44,440 bbls; last month, 47,457; last year 55,052. Beef heavy; sales 260 bbls at previous prices; stock old and new 22,001 pkgs; last month 16,109 pkgs; last year 22,933 pkgs. Beef hams in good demand; sales 415 bbls at 26@30c. Bacon heavy; sales 500 bxs short ribbed for December and January at private terms. Cut meats dull; sales 185 pkgs at 8¼@10c for shoulders; 12¾@14c for hams. Dressed hogs firmer, at 8⅝@9⅛c for city. Lard dull; sales 420 bbls at 12¼@13¼c. Butter quiet and steady at 25@45c for state. Cheese heavy, at 11@15c. Freights to Liverpool steady; 500 000 bu at 8¼c for corn per sail; 10d per steam, and 10½d for wheat per steam.

LATEST—Flour closed moderately active, with prices in favor of buyers. Wheat nominally 2@3c lower. Rye steady at $1,67 for Western. Oats dull at 80@87c in store and afloat for Western. Corn dull and heavy at $1 32@1,33 for good to prime mixed Western. Pork heavy and quiet at $21 37½@21 50 for mess, cash and regular. Beef quiet, but steady. Cut Meats dull and drooping. Bacon in moderate request and unchanged. Lard dull and heavy at 12½@13c for fair to prime steam and kettle rendered.

Cincinnati Market.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, December 2—Flour 25c higher; demand good, family $10.50@10,75. Wheat advanced to $2,45, and in good demand from interior millers. Corn firmer; new ear 75@76c. Oats firmer, the supply being light and prices higher at the close; No. 1 66@67c. Rye dull at $1,46. Barley firmer; fall $1,60@1,70. Cotton dull and nominal at 14c for middling. Tobacco unchanged and firm. Whisky unchanged. Provisions firm but quiet. Mess Pork; $20 for old and $22 for new. Green Meats sold at 7¼@9½c for shoulders and sides, and 12c for hams, with a good demand. Lard firm at 12@12½c for old and new. Bacon unchanged; sides held at 11c; there is some new bacon out but it is not wanted, the condition being regarded doubtful. Hogs in good demand, at $7@7,25 gross and $8,50@9,00 net; receipts 8,300 head. Beef Cattle unchanged and firm; Fresh Butter very scarce and wanted, being 38@40c; the market is nearly bare of this grade. Eggs firm at 29c. Linseed oil in good demand, with sales of 150 bbls at $1. Lard oil $1@1,10. Petroleum dull at 46c for refined, duty paid. Coffee dull at 23@26c. Sugar dull at 12@15c for raw. Coal is higher; dealers put up the price of Youghiogheny to 30c to-day at retail and Ohio river to 28@30c; but the mild weather modified their views somewhat at the close. New York Cattle Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, Dec. 2.—The receipts for the week were 4,248 head of Beeves; 34,837 Sheep; 33,294 Hogs. Beef is rather active; the supply on hand was only 1,500 head, and on account of the cool weather prices were very firm; while ordinary and good lots the most sought after were ¼@½c higher, the average quality on sale was not fair, and the general sales were at 13@15½c; average price about 15c; an extra article 16¼@17; prime 15½@16c first quality 15@15½c; ordinary to good 12@14½c, and inferior 8@11c. Sheep and Lambs were not so depressed as on last Monday. The demand was fair for good, the supply of which was not large, the bulk of the offerings being common; there were about 10 car loads on sale at Hudson City; 4,800 head at 40th st. The bulk of the sales were at $1,50@3,75 per head; extra $5,50 in some cases for very fine; ordinary and prime $4,00@5,00; inferior $3,00@3,75; Lambs, $5,00@6,50. Swine are rather firmer though prices are no higher, the demand is light; about all the offerings were sold at 6¾ for heavy prime; corn fed, 6¾@6⅞c; fair to good, 6¼@6⅝ for common and rough offerings.

RIVER NEWS.

The river, very suddenly and unexpectedly, rose considerably on Sunday night, and it rose all day yesterday, and was still swelling slowly last evening with thirty-one inches in the channel by the metal mark. The rise, thus far, was mainly in the Allegheny, but it is probable that there will be a swell in the Monongahela, also. It was reported that there was a rise of fifteen inches in the Beaver river, and if there is a rise in the Monongahela, there will doubtless be one in the Kanawha, too. Considerable snow fell yesterday, but in the afternoon it moderated somewhat, and was soft; in the evening, however, it was asserted by some that the wind was in the wrong direction for soft weather.

If the snow that is now on the ground should happen to be taken off with rain, a rise of considerable magnitude is inevitable; there would doubtless be water enough to let out the coal fleet, which would be a great blessing, not only to Pittsburgh, but to Cincinnati and Louisville and other points below.

Capt. J. T. Stockdale has sold a half interest in the Ida Stockdale to a Capt. Jacobs, of St. Louis, for twelve thousand dollars.

If the weather should continue soft to-day, it is probable that Capt. Brennan will leave with the Grey Eagle to-morrow for Parkersburg. The other boats of this line are below; the Leni Leoti is plying between Wheeling and Parkersburg, and at last accounts the McCullough was in the mail line, running between Cincinnati and Louisville. In case there is water, however, these boats will no doubt at once resume their places in the Pittsburgh and Parkersburg line.

It is stated on pretty good authority that never before was there as much coal in barges and boats ready to be moved, as there is at the present time, lying between the head of Brunot's Island and the Monongahela Dam. It is said that there are about sixty boats tied to one of the piers of the Birmingham Bridge, and both sides of the river, between the points above mentioned, wherever there is water enough, is lined with vessels loaded with "back diamonds." Notwithstanding there are a large number of tow water boats, yet, we doubt whether there are enough to take all the coal that is ready to be moved, and it is supposed that a number of floating boats will be sent out. Cincinnati and Louisville, it would appear, are almost bare of coal, and the same is no doubt true of many other cities below. At New Orleans, however, there is considerable coal yet; this is owing to the fact that business during the greater part of the summer and fall was almost completely suspended, in consequence of the yellow fever, and the demand, therefore, was nothing like it would have been, had business been anything near the usual standard, or anything near what was expected. It is probable, however, that coal will be wanted there before long, though it is altogether likely that our coal men will attend to filling up Cincinnati, Louisville, and other points not so far away first.

The following items are from the Memphis *Appeal* of Tuesday: A dastardly outrage was perpetrated upon the Captain and passengers of the M. S. Mepham, at New Madrid, which should stamp the participants as scoundrels of the first order. The boat arrived in the evening and laid up for the night, when Capt. McDonald, true to his nature as a liberal and high minded gentlemen, tendered an invitation to the citizens to come on board and enjoy a dance. Several drunken ruffians went into the cabin and tried to raise a row with the passengers, striking a gentleman in the face with a pistol and doing other shameful things. they drank freely at the bar, and Captain McDonald fearing further trouble, ordered the bar keeper to let them have no more liquor. At this they became incensed and drew their pistols on the officer. One of them fired at the Captain, but the ball passed between his legs and into the bulkhead. After some trouble they were put ashore, from whence they fired several shots into the boat, the balls passing through the clothes of some of the passengers, who made narrow escapes. Capt. McDonald acted very cooly and deserves much praise, which is freely awarded him by the passengers on his fine packet. It was one of the most cowardly outrages we have ever heard of, and we hope the citizens of New Madrid will denounce the action in fitting terms.

We take the following items from our Saint Louis exchanges of Saturday:

We learn that the newly formed Northwestern Navigation Company, for the Sioux City and Rocky Mountain trade, numbers among its stockholders some names of great strength and enterprise, such as Captains Dan Able and S. S. Russell of this city. These gentlemen, it will be remembered, were of the party who purchased recently, the several remaining sternwheelers of the defunct Johnsonville packet line. It is estimated that these steamers will probably become the property of the new packet company to which we refer. A steamboat captain out of employment stepped on board a boat at our wharf the other day, and was treated with remarkable hospitality. He was treated to a drink, then dinner, which was succeeded by a cigar, and on leaving the boat he was presented with a fine turkey.

Col. Waters, of Tennessee, sold the J. L. Graham the other day to S. B. Owens for $4000, and he sold her in a few days after for $5200. The Imperial and tow probably left Dubuque on the night of the 28th for St. Louis. On the 26th the Ocean Wave and six barges for New Orleans, passed Burlington, Iowa, only partially loaded. When she arrives at Cairo she will take on 62,000 bushels more of wheat, all bound for New York City via New Orleans, at the rate of thirty cents per bushel, the trip to be made in twenty days. This is an experimental trip.

A resume of accidents from snags in the Missouri river during only four weeks past results as follows: The Amanda, sunk and burned; J. H. Lacy, Amaranth, Jennie Brown, Waverly and Viola Belle sunk, and the Nymph blew up. It may be interesting to our readers to know that the barkeeper of the Amanda, after having been on that boat when she sunk, was a passenger on each the Waverly and Viola Belle, at the time a similar accident occourred to them.

SIGHT RESTORED.

The case to which we alluded some weeks ago, of Christiana Fisher, of Beaver county, is now entirely confirmed by the appearance of Miss Fisher herself, who to-day called on DR. KEYSER in person, to thank him for his kindness and skill in restoring her to ENTIRE AND PERFECT SIGHT. Miss Fisher had been nearly blind for four months. She was so blind that she could not distinguish any object so as to make out what it was. The case is remarkable, as hundreds of cases like her's are doomed to never-ending darkness, on the flimsy pretext that there is no cure, and nothing can be done. She was under DR. KEYSER's treatment for two months, and before she applied to him, through her brother, SIMON P. FISHER, slight hopes were entertained of her ever getting her sight. Her case is well known in the neighborhood where she resides, and has been regarded as one of extraordinary recovery.

We, the undersigned, know of the cure of Miss Fisher, and bear willing testimony to the facts above stated.

The case above referred to was entirely cured by medicines to purify the blood, and it is witnessed by scores of persons who have known Miss Fisher, and have a knowledge of her total restoration to health, and the recovery of her sight, as the accompanying letter of her brother sets forth:

DR. KEYSER—This is the list of names that have to your advertisement of the cure of my sister, Christiana Fisher. They were all willing to put their names down and were very much astonished to see that you brought her sight so soon. My mother sends her thanks to you; she says "you are one of the greatest men in the world." She says if we had not come across you she believes her child would not be living at this time. We all join in sending our love and respects to you.

CONSUMPTION.

It would take a man a lifetime to read the treatises that have been written upon this important subject, and if a sick man were to attempt it he would make himself worse by the reading, and die before he got half through. The symptoms of the disease are, hacking cough, expectoration of matter or pus, pain in one or both lungs, chilliness, burning in the palms of the hands and soles of the feet, exhausting day or night sweats, hectic fever, wasting of flesh or marasmus, sometimes expectoration of blood. These are the usual outward symptoms, apparent not only to the observing physician, but to the patient's friends. There are, however, more important symptoms than these, which are only made manifest by auscultation and percussion, terms which mean, in a medical sense, thumping and listening and they are employed outwardly in order to ascertain what is going on inside of the cavity of the chest. The signs of symptoms elicited in this way are almost sure to demonstrate the true and exact condition of the respiratory organs. A perfect auscultator can not fail in ascertaining whether the Lungs are acting naturally or not. Hence it is the best method of examining the lungs. Their actual condition once discovered, the appropriate treatment is more rapidly arrived at, and every diseased part more completely under the influence of appropriate remedies. We have long been of the opinion that consumption or decay, or wasting of the bodily strength, was dependent on a depraved state of the blood, which carries, in its course, tuberculous matter, and deposits it in the lungs, or elsewhere in the body, just as calculi or stone is deposited in the bladder, a small particle of which attracts other particles, until it becomes of such offense to the natural functions as to bring on inflammatory action, which action, if it could, would carry it out of the system, and which could have been easily done in the beginning of such disease. DR. KEYSER'S PECTORAL SYRUP is a complete and perfect cure in the forming stage of lung disease. It acts on the very principles we have stated above, by enabling the securing or carrying off organs to do a double share of work. Waste and repair are easily comprehended, and if the worn out material be carried off, and the renewing materia of a proper character, there must be health and ease, the contrary of sickness and disease. In many cases of consumption which have become settled, Dr. Keyser's Pectoral Syrup fails to cure, although it will do good in nearly all. He prepares a medicine called LUNG CURE or PULMONARY RESTORATIVE, which is a great tonic, and strengthens and restores the parts to be renewed, while it dissolves and carries out from the body those particles of worn out or extraneous matter which only tend to clog or destroy it, by hindering the renewing material being deposited in its proper place.

PULMONARY CONSUMPTION, RESULTING FROM PLEURISY, CURED.

Statement of George Ford, carpenter, of No 16 Sampson street, Allegheny City:

I took a violent attack of pleurisy, in May, 1866, which left me with a cough lasting all summer, wearing away my strength and gradually undermining my health. During this attack of pleurisy I had several physicians of the highest reputation in the city. After I had partially recovered from the pleurisy, I was advised to go into the country, which I did, and when there a called in a doctor, who told me my left lung was affected, and that if something were not done soon I would die of CONSUMPTION. I lingered on from this time until about the middle of June, my cough and lung disease gradually growing worse, and I weaker every day, and almost despairing of ever getting well. In this state of despondency, and knowing the general belief of the incurability of Consumption, and having heard of cures made by DR. KEYSER, and seeing his advertisement in the newspapers, I was induced in October last to call on the Doctor at his office, 120 Penn street, and had him examine my lungs with his "LUNG SOUND." He told me the upper lobe of my left lung was very much diseased, but he thought with great care and the perseverance in the use of his medicine, I would get well. At the time I called on Dr. Keyser my pulse was over one hundred and thirty beats in a minute, and I was generally prostrated, and had to cough night and day. I commenced the Doctor's treatment in October, with a feeble, broken constitution, and continued it faithfully until the present time. The Doctor's medicines helped me from the very start, and I could gradually feel myself getting stronger, and my cough and expectoration lessening. I have gained greatly in flesh, and consider myself well; all the rattling of my lung has ceased, and my general health is in every way good. All my relatives and friends know of the advanced stage of my disease and my extraordinary recovery. One of the medicines given me by Dr. Keyser was a medicine called LUNG CURE, which I took in connection with the other treatment.

PITTSBURGH, March 30, 1867.

ANOTHER CURE OF CONSUMPTION.

STATEMENT OF JOHN G. WIGHAM, OF TURTLE CREEK, ALLEGHENY COUNTY.

I was discharged from the United States army in January, 1866, on account of a wound in the head, from a shell, and a disease which the army physicians pronounced CONSUMPTION. I had a terrible cough and fell away in strength and flesh and was unable to do anything. Shortly after my return from the army, I made application to a physician of my neighborhood and, afterwards, to another in Pittsburgh of high reputation, whose remedies I used faithfully for five months, without any benefit whatever, but rather grew worse, and wasted in flesh and strength every day. In August, 1866, my mother took me to DOCTOR KEYSER, 120 Penn street, whose skill in such cases like mine had been highly spoken of and put myself under his treatment. The Doctor examined my lungs very carefully with his LUNG SOUND, and told me that my left lung was badly diseased at the upper part, but if I was careful he thought he could cure me by following his directions closely, which I did from that day to this. I gradually improved under Dr. Keyser's medicines from the first week I commenced to take them, and my general health has improved and my chest, where it was sunk en away, and where it pained me, has become full and strong and free from pain. I can now do a full day's work, and take great pleasure in giving my testimony in favor of Dr. Keyser's treatment and medicines.

JOHN G. WIGHAM, Turtle Creek.

PITTSBURGH, April 11th, 1867.

A case of five years' standing cured by DR KEYSER'S PECTORAL SYRUP:

DR. KEYSER:—My wife has been afflicted with a cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought the first time a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

WM. WILSON,
Alderman Fifth Ward.

Our son, JAMES PAINTER, some 23 years of age was afflicted with consumption of the lungs, for which he was discharged from the army. He was examined by four army physicians, who all agreed that he must die with the disease. We brought him to Dr. KEYSER, 140 Wood street, (now 120 Penn street,) who, after sounding his lungs, commenced to treat him, and cured him sound and well. He is now well and has been so for the past three years. Others afflicted in like manner can likewise be cured.

JAMES PAINTER,
MARY ANN PAINTER.
Temperanceville, Sept. 5th, 1866.

AND
KEYSER'S LUNG CURE.
Can be had at his GREAT MEDICINE STORE, 140 WOOD STREET. Consultation room, No. 120 PENN STREET. Lung examinations from 9 A. M. until 4 P. M.
